## Product Overview

The Powerology Eifel 3-in-1 Wireless Charger offers a sleek and efficient solution to charge your devices. It features an energy-efficient design with Qi-certified wireless charging technology, providing a fast and reliable charging experience for your smartphone, smartwatch, and earbuds. The charger includes a charging and data sync cable, ensuring seamless connectivity, while the stable and secure hold keeps your devices firmly in place. With a strong magnetic hold, the Eifel charger ensures that each device stays securely attached during the charging process. Additionally, the LED power indicator lets you easily track the charging status of your devices. Equipped with built-in safeguards, the charger offers protection against overcurrent, overvoltage, and short circuits for safe and reliable charging. The included 1-meter USB-C to USB-C cable supports fast charging and is designed to meet modern power needs efficiently.

## Specifications

Material	Zinc Alloy + ABS + PC
Input	15V/3A
Wireless Output	25W Max (Phone), 5W Max (Earbuds), 2.5W Max (Apple Watch)

Charging Interface	USB-C
Transmission Distance	≤4mm
Operating Temperature	0°C to 30°C
Product Weight	322g
Product Size	80.5 x 121.5 x 147mm
Model Number	PWQM046

## Product Features

- a. Zinc Alloy Material:** The charger is constructed using durable zinc alloy, ensuring a robust, high-quality build. This material is known for its strength and resistance to wear and tear, making the charger long-lasting and capable of withstanding everyday use without compromising its performance.
- b. 3-in-1 Wireless Fast Charging:** The charger is designed to simultaneously charge up to three devices, including smartphones, smartwatches, and earbuds, all without the need for multiple charging cables. It supports fast wireless charging, optimizing the speed at which your devices power up. This feature is particularly useful for users with multiple devices that need to be charged at once.

- c. Charging Horizontally and Vertically:** The charger allows for flexible positioning of devices, offering both horizontal and vertical charging options. Whether you're watching videos or browsing while charging, you can adjust the position of your devices to suit your preference, ensuring convenience during charging sessions.
- d. Providing Multiple Protections for Your Device:** The charger includes several built-in safety features to protect your devices while charging. These protections include safeguards against overcharging, overheating, and short circuits, which help to prevent damage to your devices and ensure a safe and secure charging environment.
- e. 3A 60W Fast Charging Cable:** The charger comes with a high-quality 3A 60W fast charging cable, capable of delivering rapid power to your devices. This cable supports fast data transmission and efficient charging, ensuring that your devices power up quickly and efficiently without any lag.

## **Package Contents**

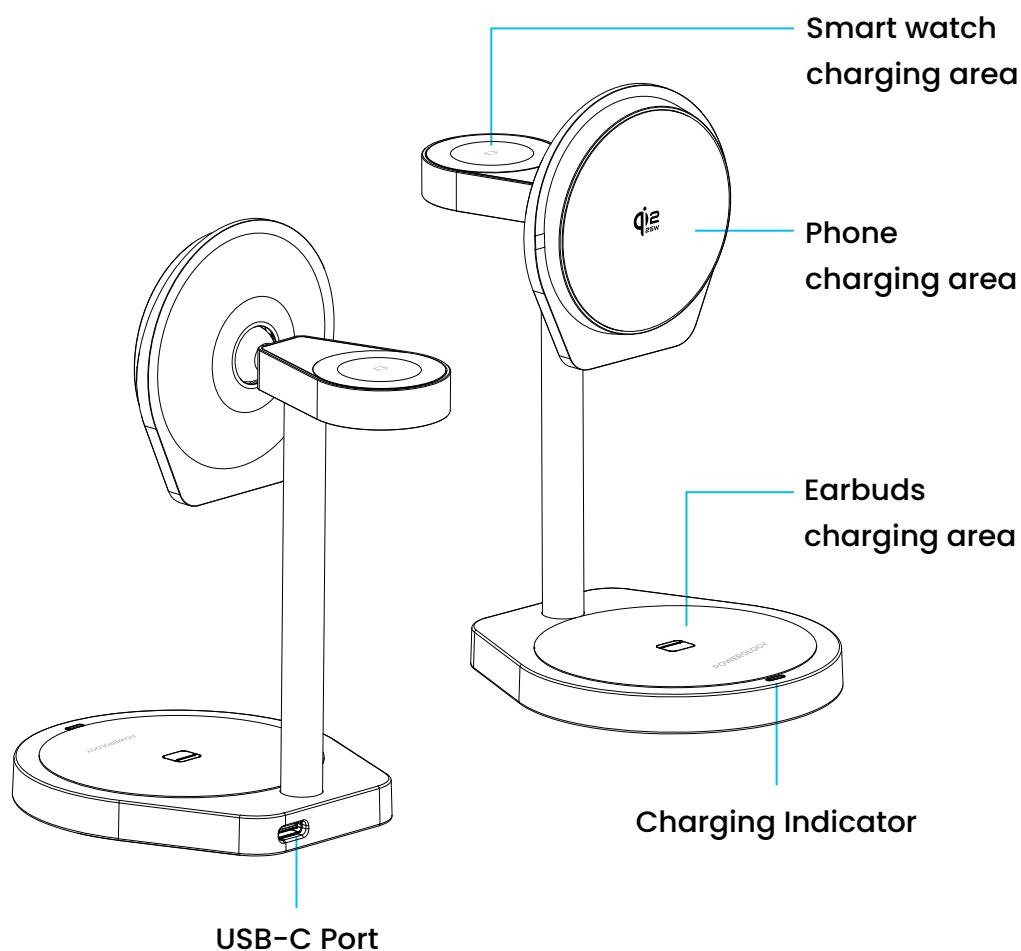

Magnetic Wireless Charger x1  
60W USB-C to USB-C Cable x1

## **Usage Instructions**

- 1.** For optimal performance, it is recommended to use a PD fast charging adapter with the wireless charger.

2. Connect the wireless charger to the adapter using the USB-C cable provided in the package. Once the power supply is connected, you can begin charging your devices.
3. After your device is fully charged, disconnect the adapter.

## Product Components

## LED Status Indicators

Light mode	Meaning
Green Light	Indicates that the power is on and the earbud is connected to the charger or when a smart watch is being charged individually.
Blue Light	Indicates that the phone or earbuds are being charged.
Light Off	The device is fully charged.
Blue & Green Light Flashing	Foreign object or error detected.

## FAQ & Troubleshooting

- 1. Prompting Abnormal Charging (Blue and Green Lights Flashing)**
- a.** Check if your phone supports wireless charging and magnetic attachment.
  - b.** Use the cable included in the package and a standard-compliant PD fast charger adapter.
  - c.** Try using different chargers and cables to ensure compatibility.
  - d.** Verify that your phone's wireless charging area is properly aligned with the charger's charging area and ensure there are no obstructions.

**2. Why Does Your Phone Charge Intermittently?**

- a.** Check your current power adapter. If it provides insufficient current or unstable voltage, replace it with a standard-compliant adapter.
- b.** The charger features over-temperature protection. Charging will automatically pause when temperatures are too high and resume once they decrease. Please refer to the "Why Does It Get Hot?" section for more troubleshooting details.

**3. AirPods Pro 2 Charging with Buzzing Sound**

The AirPods Pro 2 have a built-in buzzer. To prevent this sound, connect your AirPods Pro 2 to your phone and disable the "Charging Case Sound" feature in the settings.

**4. Why Do the Product and Phone Get Hot During Charging?**

Wireless charging inherently generates heat due to its technical nature. During the charging process, some energy is lost through electromagnetic conversion, which is then transformed into heat. This causes both the phone and the wireless charger to become slightly warm, which is a normal occurrence.

 **Charging Tips**

Phone	Thick phone cases can increase the distance between your phone and the wireless charging coils, leading to excessive heat generation. Non-magnetic cases may also prevent proper alignment, which can result in increased heat.
Earbuds	Ensure the TWS is placed precisely within the charging area. Remove the TWS's protective case before charging to avoid any interference with the charging process.

Smart Watch	Place the watch accurately within the designated charging area. Be sure to remove the watch case before charging to ensure efficient charging.

## Safety Instructions

1. Do not place the product in high-temperature or high-humidity environments.
2. Avoid touching the product with wet hands, immersing it in water, or exposing it to rain.
3. Keep the product away from liquids, flammable materials, or volatile solvents to prevent damage.
4. Store the product properly and keep it out of children's reach.
5. Do not use the product in humid environments, as this may cause short circuits or electric shock.
6. Do not disassemble, modify, or attempt to repair the device yourself.
7. Avoid dropping, strongly vibrating, or hitting the product with hardware to prevent internal damage.
8. Keep small metal objects (like paper clips and coins) or magnetic cards away from the charging area to prevent damage to magnetic cards from the device's magnetic field.

## Precautions

During wireless charging, running power-intensive applications, prolonged app usage, or operating apps while charging may cause your mobile device to become warm. This is normal and

will not affect the device’s lifespan or performance.

- 1. Use the cable included in the package and a standard-compliant PD fast-charging adapter.
- 2. This product only supports wireless charging for MagSafe-compatible iPhones and Qi-certified devices.
- 3. This product supports cases with magnetic functionality, but full compatibility with third-party magnetic accessories is not guaranteed.
- 4. The device can operate within a temperature range of 0°C to 35°C. Store it between -20°C and 50°C. Using or storing the device outside the recommended temperature range may damage the device or shorten the battery lifespan.
- 5. Keep the device away from children and pets to prevent them from chewing on or swallowing it.

Material Contents

Component Name	Harmful Substance					
	Pb	Hg	Cd	Cr(VI)	PBB	PBED
PCB	○	○	○	○	○	○
Shell	○	○	○	○	○	○
USB Connector	○	○	○	○	○	○
Attachment	○	○	○	○	○	○

This form is compiled according to SJ/T 11364.

O: Indicates that the content of the harmful substance in all homogeneous materials of the parts is under the limit requirements specified in GB/T 26572.

X: Indicates that the content of the harmful substance in at least one homogeneous material of the component exceeds the limit requirements specified in GB/T 26572.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website [\*\*https://www.powerology.me/warranty\*\*](https://www.powerology.me/warranty) and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
