## Product Overview

The Powerology Brio 125W Multi-Port Car Charger is a high-performance accessory designed to provide rapid and efficient charging for multiple devices while you're on the go. With a total power output of 125W, this charger offers PD 45W and QC 30W ports, enabling you to quickly charge your devices, including smartphones, tablets, and more. Its ability to charge up to four devices simultaneously makes it ideal for family trips or long drives with friends. The charger features a 90° adjustable design, ensuring convenient positioning for easy access, while the LED ambient lights add a touch of style and help with visibility at night. Equipped with built-in safeguards, the Powerology Brio protects your devices from overcharging and overheating, guaranteeing safe and reliable charging every time. With its universal compatibility and sleek design, the Brio 125W Multi-Port Car Charger is the perfect solution for staying powered up during your travels.

USB-A2 Output	5V/3A, 9V/2A, 12V/2.5A, 30W
USB-C1 Output	5V/3A, 9V/2.22A, 12V/1.67A, 20W
USB-C2 Output	5V/3A, 9V/2.22A, 12V/3A, 15V/3A, 20V/2.25A, 45W
Total Output	125W
Cigarette Lighter Output	120W
Product Dimension	32x95.3x97mm

## Key Features

- 1. Total Power Output:** The Powerology Brio 125W Multi-Port Car Charger delivers an impressive total power output of 125W, ensuring that all your devices receive the necessary energy for fast and efficient charging. With this robust power capacity, even larger devices like tablets and laptops can be charged without issue, making it ideal for those who need to power up multiple gadgets quickly during travel.
- 2. Simultaneous Charging:** This charger allows you to charge up to four devices at the same time, providing ultimate convenience for road trips, family outings, or group travel. Whether you need to power up your phone, tablet, GPS, or any other device, the Brio ensures everyone stays charged and connected, saving time and reducing the need for multiple chargers.
- 3. Adjustable 90° Design:** The Brio charger features a unique 90° adjustable design, which allows for flexible positioning and easy access to the charging ports. This feature is particularly useful when using the charger in a car with limited space around the cigarette lighter port. The ability to adjust the angle ensures a cleaner and more organized setup, making it convenient for drivers and passengers alike.
- 4. LED Ambient Lights:** With LED ambient lights, the Powerology Brio not only offers functional charging but also adds a touch of style to your car's interior. The lights provide a soft glow that makes it easier to locate the charger in low-light conditions, such as nighttime driving or when parked in a dimly lit area. This feature enhances visibility without being distracting, contributing to a modern and sleek look.
- 5. Built-in Safeguards:** The Powerology Brio is equipped with advanced safety features that protect both your devices and the charger itself. The built-in safeguards prevent overcharging, overheating, and short circuits, ensuring your devices are safely charged without risk of damage. These protective mechanisms give peace of mind while you're on the road, knowing your devices are in safe hands.

**6. Universal Compatibility:** Designed to work with a wide variety of devices, the Powerology Brio is universally compatible with smartphones, tablets, GPS devices, portable gaming consoles, and more. Whether you have Apple, Android, or other devices, this charger ensures seamless connectivity and charging for all, making it an essential accessory for anyone on the go.

## Usage Instructions

### **1. Insert the Product into the Car's Cigarette Lighter Port:**

Begin by locating your car's cigarette lighter port, which is typically located near the center console or dashboard. Gently insert the product into the port, ensuring that it fits securely. Once properly connected, the product should power on, ready for use.

### **2. Connect the Charging Cable to the Product:**

Take the provided charging cable and insert one end into one of the available USB charging ports on the product. Ensure that the connection is firm and the cable is fully inserted to guarantee optimal performance.

### **3. Connect the Cable to Your Device:**

Take the other end of the charging cable and plug it into your device, whether it's a smartphone, tablet, or other electronic device that requires charging. Make sure the connection is snug to ensure stable charging.

### **4. Start Charging Your Device:**

Once the cable is properly connected to both the product and your device, charging will begin automatically. You may see a charging indicator on your device, confirming that it is receiving power. If necessary, adjust the position of the product to ensure a stable connection and avoid interruptions.

## Safety Precautions

- 1.** This product is designed for use in vehicles with a voltage not exceeding 24V. Ensure that the voltage of your vehicle is within the recommended range to avoid any potential damage to the product.
- 2.** Avoid using this product in environments with high temperatures or humidity, as these conditions may affect its performance or cause damage.
- 3.** Handle the product with care. Refrain from applying excessive pressure or mounting it in a way that could lead to physical damage. Proper installation is key to maintaining the integrity and functionality of the product.
- 4.** Do not attempt to repair, puncture, or disassemble the product. Any such actions may void the warranty and could result in malfunction or safety risks.
- 5.** Keep out of reach of children to prevent any potential accidents.
- 6.** Do not expose the product to water, fire, or extreme conditions. Ensure the product remains dry and away from any heat sources to maintain its safety and effectiveness.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website [powerology.me/warranty](https://powerology.me/warranty) and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
