## Product Overview

The Powerology 4-Port Fast Charging Adapter delivers a powerful 140W output, offering versatile charging for laptops, smartphones, tablets, and more. It features three USB-C ports with PD outputs of 140W, 100W, and 30W, plus one USB-A port with QC 27W, enabling multi-device charging in a compact unit. Ideal for high-power laptop charging, it ensures fast, efficient charging with universal protocol support for compatibility across various devices. This adapter is a reliable and space-saving solution for all your charging needs.

## Specifications

Model Number	FC1030B
Input	100V-240V, 60/50Hz, 2.5A Max
USB-C1 Output	5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/5A, 28V/5A, 140W Max
PPS Output	3.3-20V/5A
USB-C2 Output	5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/5A, 100W Max
USB-C3 Output	5V/3A, 9V/3A, 12V/2.5A, 15V/2A, 20V/1.5A, 30W Max
USB-A Output	5V/3A, 9V/3A, 12V/2.5A, 27W Max
C1 + C2 Output	65W + 65W, 130W Max
C1 + C3 Output	100W + 20W, 65W + 20W, 120W Max
C2 + C3 Output	100W + 20W, 65W + 20W, 120W Max
C1 + A Output	100W + 18W, 118W Max
C3 + A Output	12W + 12W, 24W Max
C1 + C2 + C3 Output	65W + 45W + 20W, 65W - 30W + 20W, 130W Max
C1 + C2 + A Output	65W + 45W + 18W, 65W - 30W + 18W, 128W Max
C2 + C3 + A Output	65W + 12W + 12W, 89W Max
C1 + C3 + A Output	65W + 12W + 12W, 89W Max
C1 + C2 + C3 + A Output	65W + 20W + 12W + 109W Max
Max Output Power	140W
Plug Type	UK 3-Pin
Product Size	89.8 x 49 x 58.3mm

## Key Features

- 1. Powerful Output:** With a total output of 140W, this adapter is capable of delivering high-speed charging to multiple devices simultaneously. Whether you're charging smartphones, tablets, or laptops, it ensures that each device charges quickly and safely without the need for multiple chargers.
- 2. Multi-Port Charging:** The adapter is equipped with four ports to accommodate a variety of devices. The three USB-C ports are designed to handle PD (Power Delivery) charging, with output options of 140W, 100W, and 30W, allowing you to charge high-power devices like laptops and lower-power devices like smartphones. The single USB-A port provides QC (Quick Charge) 27W, ensuring fast charging for compatible devices.
- 3. Efficient Charging:** With its PD 140W output, this adapter is specifically designed to support high-power devices such as laptops. It enables efficient charging for devices that typically require more power, ensuring you can quickly charge your laptop while on the go, without worrying about running out of battery.
- 4. Universal Protocol Support:** The charger supports various charging protocols, including Power Delivery and Quick Charge, making it compatible with a wide range of devices. This ensures that no matter what device you are charging, it will receive the optimal charging speed for maximum efficiency.
- 5. Compact and Practical Design:** Despite its powerful charging capabilities, this adapter features a compact and space-saving design, making it an ideal solution for users who need to charge multiple devices at once without clutter. Its compact size also makes it easy to carry in a bag or travel case, making it perfect for use at home, the office, or while traveling.

## Key Features

### **1. Use with Compatible Devices:**

Ensure that the Powerology 3-Port Fast Charging Adapter is used with devices that are compatible with USB-A or USB-C charging ports. Using it with devices that require higher power than the adapter can deliver may result in overheating or damage.

### **2. Avoid Overloading:**

Do not exceed the maximum total output of 100W when charging multiple devices. Overloading the adapter by connecting too many high-power devices at once may cause it to overheat or malfunction.

### **3. Proper Ventilation:**

Always use the adapter in a well-ventilated area to prevent overheating. Avoid covering the adapter with any materials or placing it in a confined space that may restrict airflow.

### **4. Avoid Moisture and Water Exposure:**

Keep the adapter away from water, moisture, or humidity. Exposure to moisture can damage the internal components and pose a risk of electric shock or short-circuiting.

### **5. Use Only Approved Cables:**

Always use high-quality, certified charging cables that are compatible with the adapter and your devices. Low-quality or incompatible cables may cause charging issues, overheating, or potential damage to your devices.

### **6. Unplug When Not in Use:**

Disconnect the adapter from the power source when not in use or when it is not actively charging devices. Prolonged use without charging may lead to wear and tear on the adapter's internal components.

### **7. Inspect for Damage:**

Before using the adapter, check for any visible signs of damage to the charging ports, cables, or exterior casing. If the adapter is damaged, discontinue use and replace it immediately to avoid electrical hazards or device damage.

## 8. Do Not Disassemble:

The Powerology 3-Port Fast Charging Adapter contains no user-serviceable parts. Do not attempt to disassemble, repair, puncture, or modify the adapter. Tampering with the device could void the warranty and cause safety risks.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website [powerology.me/warranty](https://powerology.me/warranty) and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
