Product Overview

The Powerology Bahamas 20000mAh Power Bank is a high-capacity portable charger designed to keep your devices powered on the go. It features a travel-friendly design, making it easy to carry and ideal for those who need a reliable power source while traveling. The power bank supports multi-device charging, allowing you to charge different devices simultaneously. Equipped with both Lightning and USB-C In/Out ports, it offers flexible charging options for various devices. Additionally, it includes a USB-C grip cable for added convenience and a battery indicator to easily monitor the power level. With a 20W PD output, it ensures fast and efficient charging for your devices. Whether you're on the move or in need of a quick charge, the Powerology Bahamas power bank provides a practical solution for staying connected.

Specifications

Material	Zinc Alloy
Battery Capacity	20000mAh
USB-C Input	5V/3A, 9V/2.22A, 12V/1.67A, 20W Max
Lightning Input	5V/3A, 9V/2A, 12V/1.5A, 18W Max
USB-C Output	5V/3A, 9V/2.22A, 10V/2.25A, 12V/1.67A, 22.5W Max
Lightning Output	5V/3A, 9V/2.22A, 12V/1.67A, 20W Max
SCP	10V/2.25A
Total Output	5V/3A, 15W Max
Included Grip Cable	22cm USB-C to USB-C Cable
Product Weight	330g
Product Size	34.45 x 68.3×94.85mm
Model Number	PPBCHA104

Product Features

- a. High Capacity 20000mAh:** This power bank offers a substantial 20000mAh capacity, allowing you to charge your devices multiple times before needing a recharge. It's ideal for long trips, outdoor activities, or situations where access to power is limited.
- b. Travel-Friendly Design:** With its compact and sleek design, the Bahamas Power Bank is easy to carry in bags or even pockets. Its lightweight construction ensures it won't add bulk, making it perfect for travelers or commuters.
- c. Multi-Device Charging:** This power bank can charge multiple devices simultaneously, saving you time and ensuring you stay powered throughout the day. Whether you need to charge your phone, tablet, or other gadgets, it supports all your charging needs at once.
- d. Lightning and USB-C In/Out Ports:** The power bank comes equipped with both Lightning and USB-C In/Out ports, providing compatibility with a wide range of devices. This dual port feature ensures that you can charge a variety of devices without needing separate adapters.
- e. USB-C Grip Cable Included:** For ease of use, the Bahamas Power Bank comes with a built-in USB-C grip cable, ensuring you have the right cable for charging your devices, while also minimizing the need for carrying extra accessories.
- f. Battery Indicator:** The built-in battery indicator provides a clear visual of the remaining charge, allowing you to easily monitor the power level. This feature helps ensure you never run out of power unexpectedly, giving you the confidence to use your power bank throughout the day.
- g. 20W PD Fast Charging:** The Powerology Bahamas power bank supports 20W Power Delivery (PD) fast charging, ensuring that your devices receive a quick and efficient charge. This is especially useful when you need to power up quickly, offering high-speed charging to keep you on the move.

Safety Precautions

1. To prevent overheating and potential damage, do not leave the power bank plugged in once it is fully charged. Unplug it as soon as the battery is at 100 %.
2. Do not expose the power bank to water, humidity, or moisture, as this can cause internal damage or short-circuiting. Store it in a dry, cool place to maintain its longevity.
3. Ensure the power bank is kept away from excessive heat or cold. Exposure to temperatures above 40°C (104°F) or below -10°C (14°F) can negatively affect its performance and lifespan.
4. Always use the included or compatible charging cables to avoid damage to the power bank or devices. Using improper cables can result in slower charging or electrical issues.
5. The power bank contains internal components that should not be tampered with. Attempting to open or modify the device can void the warranty and potentially cause harm.
6. Store and use the power bank in a safe area, away from flammable materials or sources of fire, to avoid the risk of ignition.
7. Check the power bank and cables regularly for visible damage or wear. If you notice any issues, stop using the device immediately to avoid any risk of malfunction.
8. When charging the power bank, make sure it is placed in a well-ventilated area to prevent overheating during the charging process. Avoid charging it under blankets, pillows, or other items that may restrict airflow.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference; and
 - (2) This device must accept any interference received, including

interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for assistance.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Powerology** website or shop come with a 12-month warranty.

The 12-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website <https://www.powerology.me/warranty> and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 12-month warranty period.
