Product Overview

The Powerology Voltvoya GaN Travel Adapter is a compact and efficient charger designed for fast charging with 100W PD and 18W QC support. It features a smart TFT display and supports multiple plug types, including EU, UK, AUS, and US, making it ideal for global use. Built-in safety features such as over-temperature, over-voltage, over-current, and short circuit protection ensure secure charging. The adapter is made from fireproof materials and includes a travel lock and dual fuses for added safety.

Specifications

Material	PC + Copper
Rated Power	1000W at 100V, 2500W at 250V
Rated Voltage	100-250V
Rated Frequency	50/60Hz
Rated Current	10A
Display Size	1.47"
Display Resolution	172 × 320
Plug Types	US, UK, AU, EU
USB-C1/C2 Output	5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/5A, 100W Max
USB-C3 Output	5V/3A, 9V/2.22A, 12V/1.67A, 20W Max
USB-A1 Output	5V/3A, 9V/2A, 12V/1.5A, 18W Max

Plugs & Connectors Guide

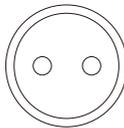

The adapter can be plugged into the following types of outlets:

Type A

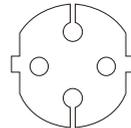

Type B

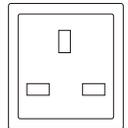

Type C

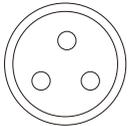

Type E

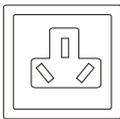

Type F

Type G

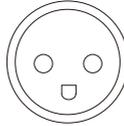

Type H

Type I

Type J

Type K

Type L

Compatible Devices

Electric Fan

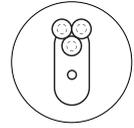

Hair Straightener

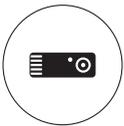

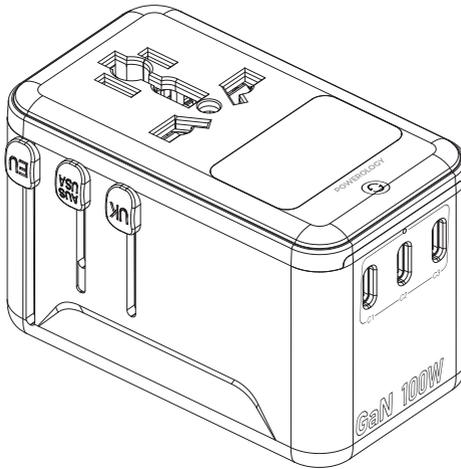

Kettle

Small travel hair dryers

Electric Razor

Projector

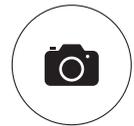

AirPods

Smartphone

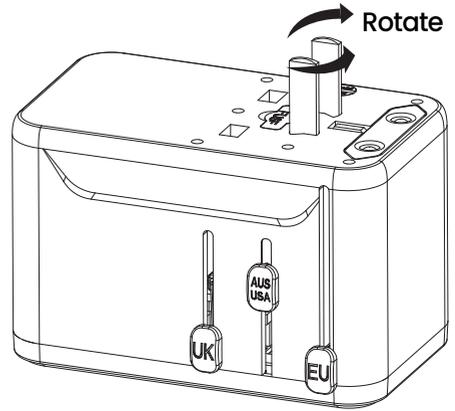

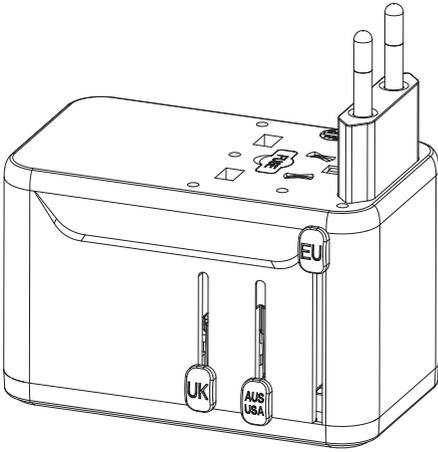

Tablet

Camera

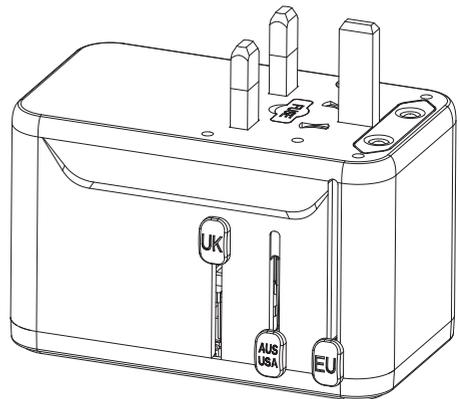

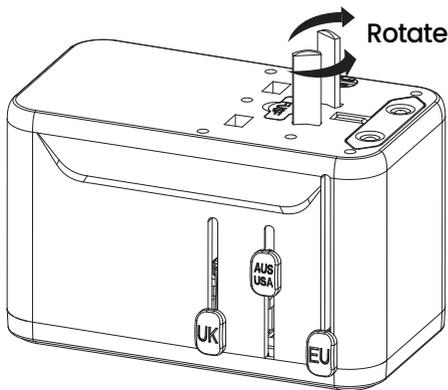

Note: This product may not work with certain high-power appliances, such as hair dryers over 2500W.

Compatible Countries & Regions

EU Plug/Type C: Germany, Denmark, France, Finland, Norway, and others.

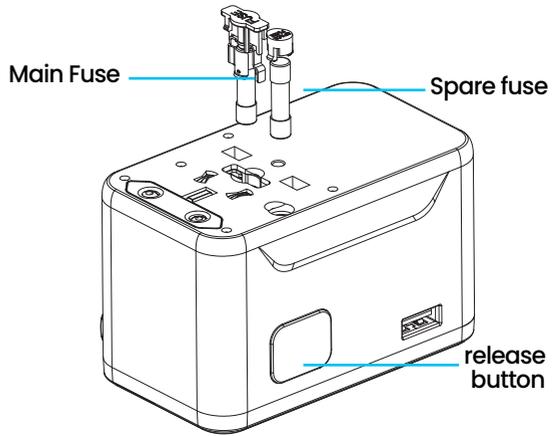

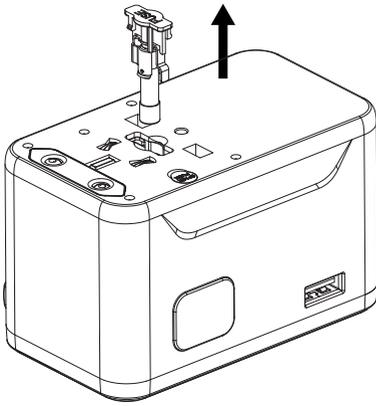

US Plug/Type A: USA, China, Japan, Panama, Mexico, Philippines, and others.

AUS Plug/Type I: China, Australia, New Zealand, Argentina, Fiji, and others.

UK Plug/Type G: UK, Singapore, Malaysia, Maldives, and others.

Fuse Replacement Guide

1. When the travel adapter is used with high-power devices that exceed the standard, the fuse may blow. In this case, a new main fuse needs to be replaced. All pins should be reversed, and a screwdriver or similar tool should be used to pry open the main fuse cover.

2. The main fuse can be removed along with the fuse cover. At the same time, pry open the spare fuse cover, install the spare fuse into the main fuse cover, and reinstall it in its original position.

Note: This adapter does NOT convert voltage. To use an AC-powered electric device abroad, please ensure it supports dual voltage (with "100-250V, 50/60Hz" printed on it).

Safety Precautions

1. Before use, please carefully read these instructions. This product does not convert voltage (AC to AC). To avoid potential damage to your device or other safety hazards, ensure that the power outlet you intend to use has the correct voltage to operate your device before using this adapter.

2. Each country has its own regulations regarding the use of travel adapters. Please verify the regulations in each country before use.
3. This product is for use with unearthed or double-insulated appliances only and does not provide grounding.
4. The adapter is compatible with over 180 countries, covering regions with US, AUS, EU, and UK plugs.
5. Built-in safety shutters protect users from direct contact with the live parts of the socket outlet.
6. Only one plug type can be used at a time. Other plug pins will be automatically locked.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference; and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.
Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

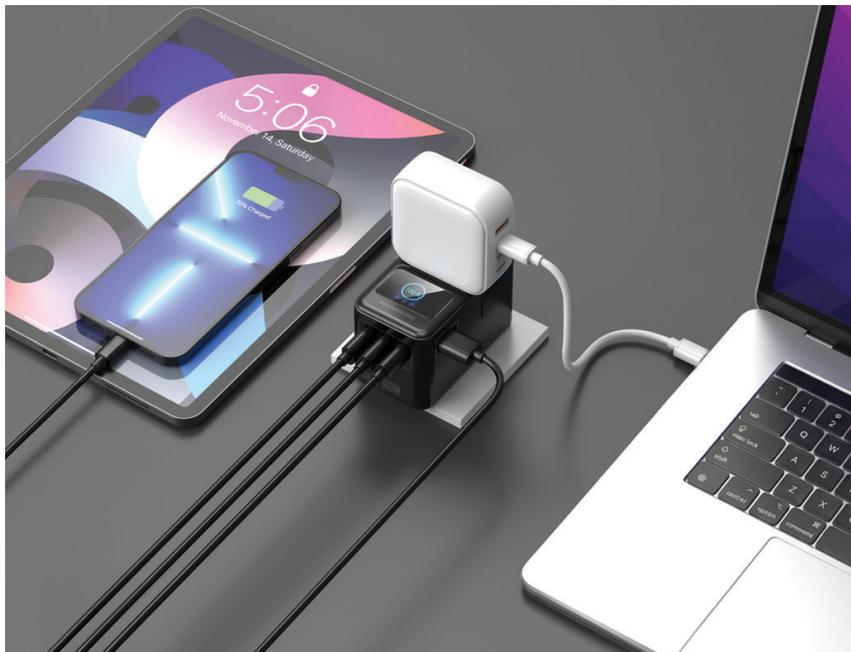

Consult the dealer or an experienced radio/TV technician for assistance.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

Disposal

This product must not be disposed of as unsorted household waste. It is essential to separate electrical waste for proper treatment and recycling in accordance with local waste management regulations. Please ensure that waste electrical products are not discarded with household waste. Recycle the product where facilities are available. For further guidance, contact your local authority for recycling advice.

Warranty

Products that you buy directly from our **Powerology** website or shop come with a 12-month warranty.

The 12-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website <https://www.powerology.me/warranty> and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 12-month warranty period.
