Product Overview

The Powerology Drift Handheld Turbo Fan is a versatile and portable device designed for both cooling and suction. It features four adjustable speed levels, three light modes, and a dual blower and suction system to meet various needs. The fan is powered by a 77000 RPM max motor speed, ensuring powerful airflow and suction capabilities. The durable aluminum alloy construction makes it lightweight yet sturdy, offering a comfortable grip for extended use. It also includes a front and rear flashlight, enhancing its utility in low-light conditions. The device comes with a suction tray for added convenience and a set of accessories to further enhance its functionality. Whether you're cooling off on a hot day or using it for various tasks around the house, this handheld fan provides flexibility and efficiency in a compact, user-friendly design.

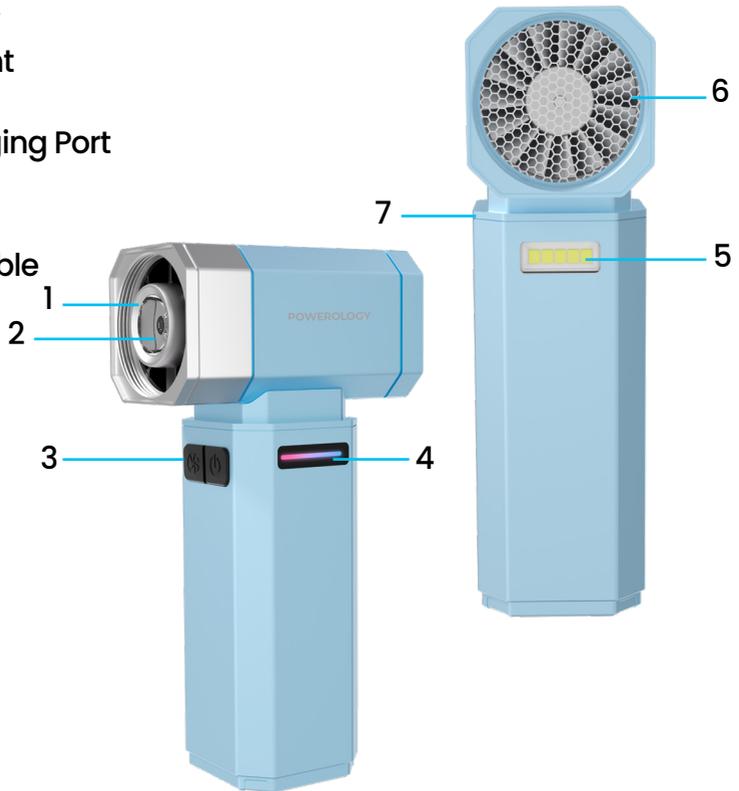

Specifications

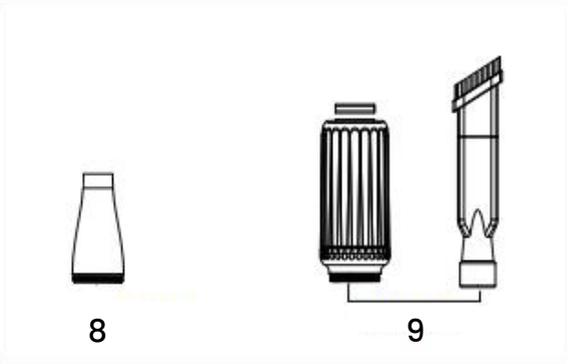

Product Material	Aluminum Alloy
Input	5V/2A
Rated Power	280W
Battery Capacity	8000mAh (4 x 2000mAh)
Max Blowing Force	250 g
Charging Time	90 Minutes
Charging Interface	USB-C
Motor Speed Levels	24000RPM (Low), 53000RPM (Medium), 73000RPM (High), 77000RPM (Turbo)

Flashlight Modes	Low-High-Blinking
Operating Temperature	0°C to 40°C
Product Weight	481g
Product Size	44 x 82 x 154mm
Model Number	PWMY96005

Product Components

1. Air Outlet
2. Front Flashlight
3. Power Button/Gear Adjustment Button
4. Power Display
5. Back Flashlight
6. Air inlet
7. Type-C Charging Port
8. Nozzle
9. Vacuum
10. Charging Cable

Operation Instructions

1. Power ON/OFF:

Press and hold the Power Button.

2. Speed Adjustment:

a. Press the Gear Adjustment Button to cycle through Low → Medium → High → OFF.

b. Long-press the Gear Adjustment Button for 30 seconds to set the timer to maximum speed.

3. LED Adjustment:

a. Press the Power Button to cycle through light modes (Low → High → Flash → OFF).

b. Double-click the Power Button to cycle between the front light and backlight modes.

Accessory Usage Guide

Accessories must not be installed simultaneously and cannot be used concurrently.

LED Functions

1. Display battery level after the product is powered On.
2. Display gear when adjusting the speed.
3. Charging indicator shows charging progress.

Charging Instructions

1. Please fully charge the battery before the first use to ensure optimal performance.
2. Keep the device powered off during charging. The device does not charge while powered ON.

Package Contents

1. Main Unit
2. Nozzle
3. Vacuum
4. Data Cable

Safety Instructions

1. The air output from this product is cold air. When using it, please keep your hair away from the blower and air inlet to avoid inhaling hair.
2. Please do not blow air towards the eyes, ears, mouth, or other sensitive areas of the body during use.
3. Do not leave the product running while unattended.
4. Please do not store this product where children or pets can reach it.
5. Do not store this product in a humid environment or one prone to water splashes (e.g., near a bathtub, shower, washbasin, or any other water container).
6. Do not use this product in an environment where the temperature is too high or too low.

7. Store the product in a well-ventilated, dry place, away from direct sunlight.

Case and Maintenance

1. This product is not waterproof. Please do not use cleaning liquids such as alcohol, nail polish remover, or detergent to clean it. It is recommended to use a clean, soft cloth to wipe the product.

2. Regularly remove attachments from the air blower and air inlet.

3. Do not press or rub the blower and air inlet with nails or sharp objects.

4. Do not overcharge or discharge the battery, as this may cause damage to the battery core.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference; and

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the

equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for assistance.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

Disposal

The battery used in this product is a recyclable resource. When discarding, please hand it over to a professional organization that can recycle rechargeable batteries. Batteries must be removed from the appliance before disposal, and the appliance must be de-energized when removing the batteries. The batteries must be disposed of safely.

Warranty

Products that you buy directly from our **Powerology** website or shop come with a 12-month warranty.

The 12-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website <https://www.powerology.me/warranty> and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 12-month warranty period.
