Product Overview

The smartwatch combines a 1.32-inch AMOLED display with health and fitness tracking, multi-sport modes, phone-assisted GPS logging, notifications, voice control and Bluetooth calling. Its IP68 water-resistance rating and customizable watch faces support everyday activities and personalized use.

Safety Instructions

Warning:

1. Do not use health-monitoring data for medical diagnosis or treatment; seek professional medical advice for health concerns.
2. Do not interact with the product while driving, cycling, or whenever distraction could cause danger.

3. Do not disassemble, crush, puncture, burn, or expose the product or battery to heat sources — fire or explosion may result.
4. Stop charging immediately if the product becomes excessively hot, swollen, damaged, or emits an unusual odor.
5. Do not charge the product while it or the charging contacts are wet.
6. Use a compatible magnetic charger with the correct rated output.
7. Keep the product, removable straps, and other small parts away from young children — choking hazard.
8. Keep the product and magnetic charger away from implanted medical devices as directed by the medical-device provider.
9. Use only a 5 V DC USB power source rated 1 A or higher with the supplied compatible magnetic charger.
10. Do not use a damaged magnetic charger, cable, connector or housing; use the charger only indoors in a dry location and keep it uncovered while charging.
11. Keep call and media volume at a comfortable, safe level, and avoid prolonged listening or calls at high volume.
12. Keep this manual for future reference.
13. Do not wear, use, or operate the smartwatch while it is charging.
14. Do not modify the smartwatch, battery, magnetic charging cable, or housing.
15. Disconnect charging power by gripping the connector or power-adaptor body; do not pull on the cable.

Attention:

1. Stop using the product if you experience skin irritation or discomfort from prolonged contact.
2. Do not immerse the product beyond its IP68 water-resistance rating.
3. Rinse off sweat, salt water, or chemicals and dry the product thoroughly after exposure.
4. Keep the charging contacts clean and free from metal objects and debris.
5. Store the product in a cool, dry place away from direct sunlight and heat sources.
6. Use the smartwatch only at 0–45 °C and store it at –10–45 °C.

7. During long-term storage, recharge the smartwatch at least once every three months.
8. Built-in overcurrent, overvoltage, short-circuit and over-temperature protection may interrupt charging; disconnect the charger and allow the smartwatch to cool before charging again.
9. IP68 water resistance is not permanent; avoid hot water, steam, high-pressure water, and salt-water exposure.

Setup and Operation

1. Package Contents:

Smartwatch × 1 with loop strap

Silicone watch strap × 1

Magnetic charging cable × 1

2. Charge the smartwatch:

Dry the smartwatch and its charging contacts before charging.

Align the magnetic charger with the charging contacts.

Connect the charger to a suitable power source.

Allow approximately 2 hours for a complete charge.

3. Install and connect the companion app:

Scan the download code on the packaging or search for the Da Fit app on a compatible mobile device.

Install the app and enable Bluetooth on the mobile device.

Open the app and use its device-connection menu to find the smartwatch.

Select the smartwatch and approve the requested pairing permissions.

4. Use Bluetooth calling and voice control:

Keep the smartwatch paired with the mobile device.

Grant the app and Bluetooth connection the requested call and contact permissions.

Open the calling or voice-control function on the smartwatch.

Follow the on-screen prompts to place a call or use the voice-control feature.

5. Track health information:

Wear the smartwatch securely so its sensors maintain contact with the skin.

Open the required heart-rate, sleep or stress function.

Follow the prompts and remain still when taking an on-demand measurement.

Review recorded information on the smartwatch or in the connected app.

6. Record sports and GPS information:

Keep the connected mobile device with you when phone-assisted GPS logging is required.

Open the sports menu and select the appropriate activity mode.

Start the session and confirm that recording has begun.

End and save the session when the activity is complete.

7. Change the watch face:

Open the watch-face menu on the smartwatch or in the connected app.

Browse the available customizable watch faces.

Select a design and apply or synchronize it.

Keep the Bluetooth connection active until synchronization is complete.

8. Use the rotating control button:

Press the rotating control button to access or confirm an available function.

Rotate the control button to navigate supported menus and options.

Use the touchscreen to select functions and review information.

Specifications

Material	Aluminum + Zinc Alloy + Silicone Strap
Battery Capacity	250mAh
Display	1.32" AMOLED
Screen Resolution	466 × 466
Memory	16MB (ROM), 284KB + 32KB (SRAM)
Charging Time	2h
Working Time	4-6 Days
Standby Time	15 Days
Bluetooth Version	5.2
Water Resistance Level	IP68
Operating System	iOS and Android 10.0+
Charging Method	Magnetic
Chipset	JL7074
Bandwidth	18mm
Product Weight	50g
Product Size	43 × 11mm
Model Number	PWT77

Features

1. 1.32-inch AMOLED display with a resolution of 466 × 466
2. Advanced heart-rate, sleep and stress monitoring
3. Multi-sport activity modes
4. Phone-assisted GPS logging

5. Voice control and Bluetooth calling
6. More than 100 customizable watch faces
7. Rotating control button for easy navigation
8. IP68 water resistance
9. Up to 15 days of standby time
10. Interchangeable silicone strap for a custom look

Care and Maintenance

1. Routine care

Wipe the smartwatch and strap with a soft, dry cloth after exercise or exposure to moisture.

Keep the charging contacts clean and dry.

Remove accumulated sweat or debris before charging.

Avoid abrasive cleaners, solvents and sharp tools.

Store the smartwatch in a clean, dry place when it is not in use.

Inspect the strap and its attachment points regularly.

After exposure to clean water, dry the smartwatch thoroughly.

Frequently Asked Questions

1. Which mobile devices are compatible?

The smartwatch supports iOS and Android 10.0+ devices.

2. Which app should I install?

Install the Da Fit app using the download code on the packaging or the compatible device's app marketplace.

3. How long does charging take?

A complete charge takes approximately 2 hours.

4. How long can the battery operate?

The stated working time is 4–6 days, with up to 15 days of standby time; actual duration varies with enabled functions and usage.

5. Can the smartwatch record a GPS route independently?

GPS logging uses the connected mobile device's GPS, so keep the mobile device connected and nearby while recording a route.

6. Can I change the strap and watch face?

The package includes an additional silicone strap, and more than 100 customizable watch faces are supported.

Troubleshooting

Problem	Likely Cause	Solution
The smart watch does not power on	Battery charge is depleted	Connect the magnetic charger and charge the smart watch before trying again.
smart watch does not charge	Charging contacts are wet, dirty or misaligned	Dry and clean the contacts, then realign the magnetic charger and verify the power source.
smart watch cannot be found during pairing	Bluetooth is disabled or the smart watch is outside connection range	Enable Bluetooth, keep both devices close together and repeat pairing through the app.
Pairing repeatedly fails	An incomplete or previous connection is interfering	Remove the saved connection from the mobile device, restart both devices and pair again through the app.
Notifications do not appear	Notification access is disabled or the app is not connected	Enable the required notification permissions and confirm that the app remains connected.

Problem	Likely Cause	Solution
Bluetooth calling does not work	Call permissions or the calling connection are unavailable	Grant call and contact permissions, then confirm the required Bluetooth connection is active.
GPS route information is missing	The mobile device's GPS or location permission is unavailable	Enable location services and app permissions, and keep the mobile device connected during the activity.
Health readings are unavailable or inconsistent	The sensors do not have stable skin contact	Wear the smart watch snugly, clean the sensor area and remain still during measurement.
Battery operating time is shorter than expected	Frequent calls, monitoring, notifications or display use increases power consumption	Reduce unnecessary functions and display use, then fully recharge the smart watch
The touchscreen or controls do not respond	Moisture, debris or a temporary software interruption is affecting operation	Dry and clean the controls, then restart the Bluetooth device.

Problem	Likely Cause	Solution
The smart watch feels unusually warm while charging	Poor contact or an unsuitable charging environment is affecting charging	Disconnect the charger, allow the smart watch to cool, clean and dry the contacts, then reconnect it correctly.
Watch-face synchronization stops	The Bluetooth connection was interrupted	Keep the smart watch and mobile device close together, reconnect them and repeat synchronization.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our Powerology website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our Powerology website or store. If Powerology products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website www.powerology.me/warranty and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
