SKU:PWSTRDBK

**User manual**

To Our Dear Customer, We are appreciative that you bought our products. Please carefully read this manual before using the product to gain a greater understanding of it. I hope you have a joyful experience.

## 1. App Installation:

> Windows: Navigate to cc.key123vip/win to download.
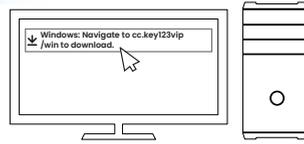

**Windows:** Navigate to cc.key123vip/win to download.
**Mac:** Visit cc.key123vip/mac to download.

Install the Stream Deck application.

## 2. Device Connection:

USB
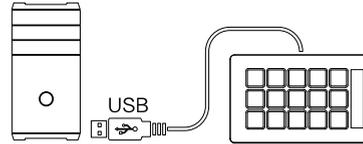

Connect the Stream Deck to your computer's USB port. Avoid using a USB hub. Press the start button to power on the device.

## 3. Customization:

Open the app to configure the Stream Deck. Drag and drop actions from the right panel to your desired keys on the left.

## 4. Key Icons:

- Select local file
- Open the Stream Dock icon library
- Screenshot
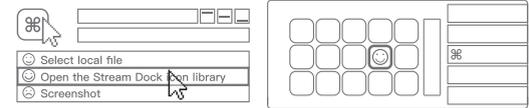

Personalize keys with custom icons. For optimal results, use images with dimensions of 126x126 pixels in JPG or PNG format

## 5. Organizing Actions:

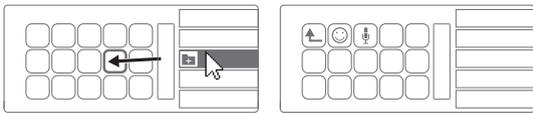

Drag and drop the "Create Folder" action onto a key. Then, organize actions within that folder.

## 6. Navigating Folders:

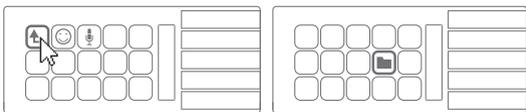

Tap the back key to exit a folder and return to the main configuration.

## 7. Editing Keys:

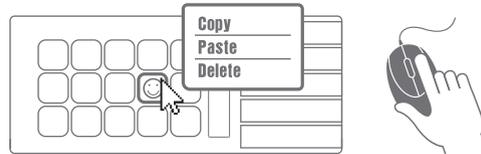

Copy
Paste
Delete

Right-click on keys to copy, paste, or delete actions.
