Device Compatibility

This product is designed for a broad range of electronic devices with a maximum capacity of 1840W at 230V and 880W at 110V. It is compatible with devices such as cameras, iPads, iPhones, MacBooks, Android smartphones, power banks, headsets, gaming consoles, shavers, GPS devices, etc. Always refer to your device's safety data sheet or nameplate for compatibility before use.

WARNINGS

-The maximum power output of the charger is 45W for USB-C and 12W for USB-A when used independently. When both USB-C and USB-A are in use, the USB-C output is reduced to 30W.

-This adapter plug is for socket compatibility only and does not convert electrical voltage. Ensure the voltage of your device corresponds with the local power network.

-Always disconnect the adapter from the wall outlet when not in use.

-Do not operate the adapter if it appears damaged in any way.

-Keep the adapter dry and avoid environments where it may be exposed to moisture or high humidity.

-Handle the adapter only with dry hands to prevent electrical shock.

-This adapter is not suitable for high-powered appliances exceeding 230V at 1840W or 110V at 880W.

-Keep this device out of children's reach to prevent accidental misuse.

-Designed for indoor use only.
