Before installing and using the product, please carefully read this User Manual to guarantee correct usage and keep it secure for future reference.

### **Features**

- 1. Features an LED display for clear viewing of the status and battery level.
- 2. The case is finished with a UV coating and has a metallic coating on the middle frame for aesthetic appeal and durability.
- 3. High-efficiency power transfer is achieved through advanced technology.
- 4. The lithium-ion battery cell ensures high safety and stability.
- 5. Designed with a low self-discharge rate to maintain charge over long periods, ensuring prolonged standby time.
- 6. Offers high compatibility with a variety of mobile phones.
- 7. Includes an intelligent protection program to safeguard against overcharging, discharging, and short circuits, among other risks.
- 8. The design is compact for portability and operation is straightforward and user-friendly.
- 9. Includes a 30cm Type-C to USB 3A fast charging cable, enhancing the convenience of use.

#### **Schematic View**

- 1. USB-A Quick Charge Output
- 2. Type-C2 Power Delivery Output
- 3. Type-C1 Power Delivery Input and Output
- 4. LED Display
- 5. Control Button

### **Specifications**

Model	PPBCHA25
Battery Capacity	Li-ion 20000mAh / 74Wh
USB-C2 Input	DC 5V/3A, 9V/2A, 12V/1.5A (PD18W)
USB-C2 Output	DC 5V/3A, 9V/2.22A, 12V/1.67A (PD 20W)
USB-C1 Output	DC 5V/3A, 9V/2A, 12V/1.5A (QC 18W)
USB-A1 Output	DC 5V/3A, 9V/2A, 12V/1.5A (QC 18W)
SCP	DC 10V/2.25A (22.5W)
Total Sharing Output	DC 5V/3A, 15W (Max.)

## Instructions for Use

#### 1. Charging the Power Bank

Connect the Type-C cable to the power bank's Type-C1 port and then connect the other end to a computer, car charger, or an electric outlet. The power bank will begin charging automatically. During this time, the number indicator on the power bank will flash, signaling the remaining battery level.

#### 2. Charging Other Devices

Using your own charging cable (not included with the power bank), plug your device into one of the power bank's USB outputs or the Type-C output. Your device will start charging automatically. The power bank's LCD display will show the remaining battery power.

Once the device is fully charged, you may press the button twice to turn the power bank off, or it will automatically power down after 35 seconds of inactivity.

### **Warning**

- 1. Always supervise the power bank during charging.
- 2. Avoid exposing the power bank to excessive moisture or liquids. Store it in a cool, dry location.
- 3. Do not inflict any damage or puncture the power bank's exterior cover as this could lead to overheating or cause a fire or explosion.
- 4. Keep the power bank away from heat sources such as radiators, stoves, or open flames. Do not leave it in environments where temperatures exceed 40°C, for instance, inside a vehicle on a hot day or in direct sunlight, as this could cause overheating, fire, or an explosion.
- 5. Avoid using the power bank in areas with strong electrostatic or electromagnetic fields, including near microwave ovens, which could diminish its lifespan.
- 6. If the power bank emits any unusual odors, generates excessive heat, or shows signs of discoloration or distortion, stop using it immediately.
- 7. Entrust all servicing to qualified service technicians. Service is required if the power bank is damaged, has been exposed to liquid, or is not functioning properly. Do not attempt to repair or disassemble the device yourself as it may lead to overheating, fire, or an explosion.
- 8. When the power bank reaches the end of its service life, dispose of it properly at a dedicated battery recycling facility. It should not be disposed of with regular domestic waste.
- 9. If the power bank remains unused for more than three months, the battery capacity may decrease. However, it will regain its normal capacity after 3 to 4 complete charge and discharge cycles.

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website **powerology.me/warranty** and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
