Troubleshooting

Problem	Solution
Dashed and broken line when attempting to draw/ Line gets eliminated	1 . Verify that the pen nib is properly positioned. If not, adjust the pen. 2 . Please conduct another test after replacing the pen nib. 3 . Check if the screen protector is excessively damaged or too thick, which may cause issues. 4 . Restart the iPad.
Inability to write	1 . Ensure the application is open. 2 . Confirm that the iPad model is compatible with the stylus pen. 3 . Verify if the app supports the smart pencil input. 4 . Check if the smart pencil is successfully connected to the iPad. If you have problem with the connection, restart the pencil and try using it again.
For issues with opening the smart pencil	1 . Check the smart pencil's battery power. 2 . Verify whether the device is operational or requires calibration
Note: If you have further inquiries regarding the usage of the smart pencil, please contact us.
