Type-C Cable
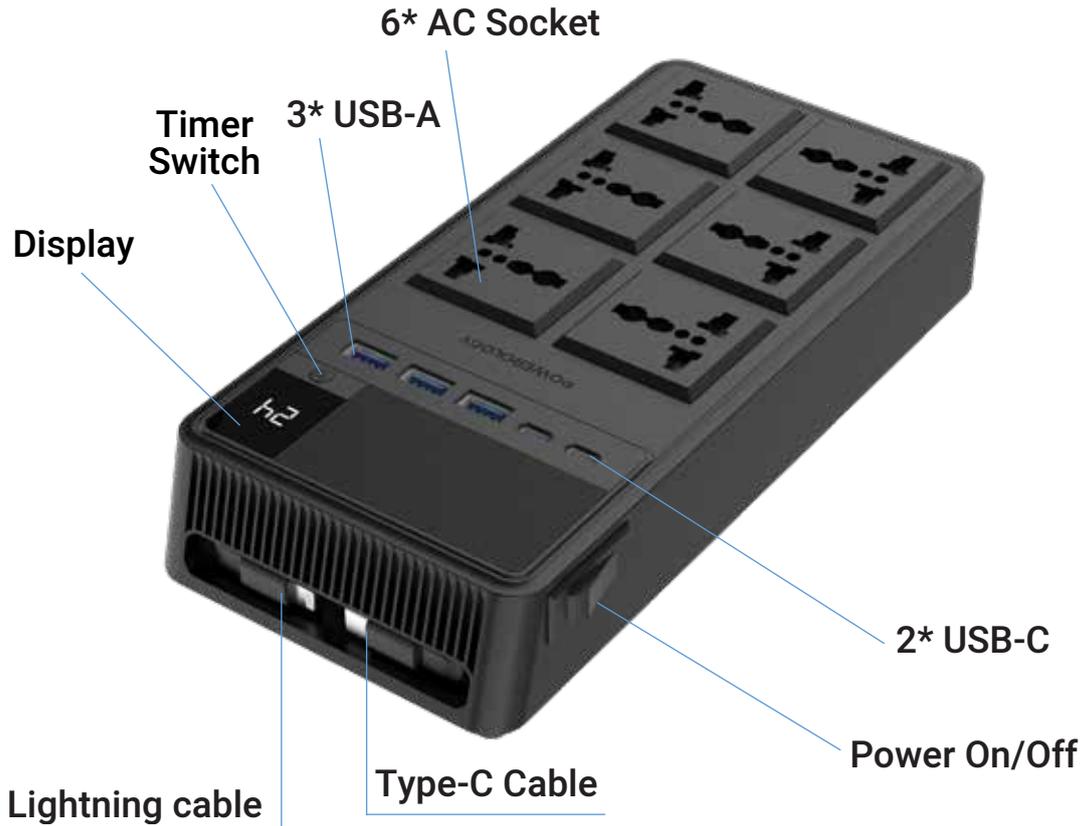

Specifications

Input	100-240V, 50-60Hz, 10A
USB-C	5 3A, 9V/2.22A, 12V/1.67A, PD20W
USB-A	5V/3A, 9V/2A, 12V/1.5A, QC18 3.0W
USB-C Cable	5V/2.4A, 12W, 9V/2.22A, 12V/1.67A, PD20W
Lightning Cable	5V/2.4A
All Ports/Wires Simultaneous Use	5V/3A, 15W
DC Total Power	58W Max
AC Total Power	2500W Max
Cables Length	70cm
Power Cord	3M UK Plug

Instructions for Use

Step 1: Plug the AC power cord of this product into the AC socket.

AC socket

Step 2: Press the power switch (Power On / Off) to the On position. The display screen will light up and show "OFF." All DC and AC ports will be activated and ready for normal use.

Press Left

Warning: When connecting or disconnecting the AC port, please ensure the total output is turned off. Avoid touching high-voltage areas to prevent accidental contact with electrical components.

Using the Timer Function

Step 1: Connect the product to an AC power supply.

Step 2: Press and hold the Timer switch for 35 seconds. The display screen will show 0.5 (H), indicating that the timer function has been activated.

Press for 3 to 5 seconds

Step 3: To set the timer, press the Timer switch to increase the timing by 0.5 (H). When it reaches 24 (H), it will automatically return to 0.5 (H) and continue cycling. Set the desired time for the product.

Step 4: Once the timer is set, the countdown will begin. The display will update every 0.5 (H), and when the time reaches 0.0, the DC port will automatically close.

Step 5: To restart the timer, press the timer button.

Step 6: If the timer function is no longer needed, press and hold the button for 5-3 seconds to turn off the timer. The display will show "OFF," and the DC port function will remain active.

Note: When setting the timer, please carefully evaluate the timing to avoid affecting the power equipment when the DC port is not in use.

Using the Built-In Cable

Step 1: Pull out the required cable according to the direction indicated by the arrow.

Step 2: After removing the cable joint, gently pull the wire in the vertical direction. When a "click" sound is heard, the cable is fully extended.

Step 3: To retract the cable, gently pull the wire in the vertical direction. When the "click" sound is heard, slowly release it, and the wire will automatically retract.

Warning: When using the telescopic cable, please pull it gently to avoid damaging the wire.

Safety Precautions

1. Before using this product, please read and fully understand the operation instructions.

2. Keep away from children, infants, and pets to prevent accidental contact, which could result in injury.

3. The recommended ambient temperature for this product is between -20ºC and 45ºC.

4. Handle the product gently when placing it. If the product needs to be moved, please disconnect the AC socket cable before doing so.

5. Ensure the plug is inserted into the jack when in use. This product may generate slight heat, which is normal.

6. This product is not waterproof and should only be used in dry indoor environments. Keep it away from wet, dusty areas, and protect it from fire, water, and other liquids.

7. Do not expose the product to heat or place it in fire.

8. Avoid short-circuiting the product and do not store it with coins, jewelry, keys, or other metal objects.

9. This product contains high voltage. Non-professionals should not attempt to dismantle it to avoid accidents.

10. The product contains high-voltage power, and only the plug should be inserted into the jack.

11. If you do not intend to use the product for an extended period, please disconnect the socket cable.

12. The total power load of the electrical appliances connected to this product should not exceed the maximum power rating of 2500W. Exceeding this limit may damage the product and, in severe cases, cause a fire.

Warranty

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website **powerology.me/warranty** and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
