Before installing and using the product, please carefully read this User Manual to guarantee correct usage and keep it secure for future reference.

Features

With 4 LED Indicator: The power bank is equipped with four LED lights that display the remaining battery life and charging status.

TYPE-C Two-Way Fast Charging in PD20W Power: Features a Type-C port with 20W Power Delivery for rapid two-way charging, enhancing both input and output speeds.

Built-in Type-C Cable: Comes with an integrated cable for direct charging of devices without needing an additional cable.

Air Vent Clip for Convenient Use in Car: Includes a clip to attach the power bank to the air vents in a vehicle, ensuring easy access and functionality while driving.

Compatible with Charging Protocols of Various Fast Charging Products on the Market: Supports multiple fast-charging protocols, making it versatile for use with a range of devices.

High Transfer Efficiency: Engineered for optimal power transfer efficiency, minimizing energy loss during charging.

Li-polymer Battery Cell with High Safety and Stability: Utilizes a lithium-polymer battery known for its safe and stable performance.

Low Self-Discharge; Long Standby Time: The power bank has a low self-discharge rate, allowing it to maintain its charge over an extended period when not in use.

High Compatibility Fits for Different Mobile Phones: Designed to work seamlessly with various mobile phone models, ensuring broad compatibility.

Intelligent Protect Program to Avoid Overcharging/Discharging, Short Circuit, etc.: Features advanced safety technologies to prevent overcharging, over-discharging, and short circuits, protecting

both the power bank and the connected devices.

Private and Compact Design, Easy to Carry: Its sleek, compact design makes it portable and discreet, ideal for on-the-go use.

Overview

- 1. Air vent clip
- 2. Magnetic Wireless charging output
- 3. Built-In Type-C Cable
- 4. USB-C input & output
- 5. On/Off Button
- 6. LED indicator

Specifications

Battery Capacity	5000mAh
Type-C Input	5V/3A, 9V/2A, 12V/1.5A (18W)
Type-C Output	5V/3A, 9V/2.22A, 12V/1.67A (20W)
Type-C Cable	5V/2.1A
Wireless Output	5W, 7.5W, 10W, 15W
Size	98×66×24mm
Weight	168gr

Charging

A. Charging the Power bank

To recharge your power bank, connect it to a computer, car charger, or wall charger using a Type-C to Type-C cable. The power bank will automatically start charging, and the LED indicator will display the current power level.

B. Charging Other Devices

1. Using your device's charging cable (not included), connect your device to the USB-C outputs. Press the power button once; the LED indicator will then show the current power level, and the power bank will begin charging your device.

2. To charge your devices using the built-in type-C cable, simply connect the cable to your devices and press the power button once. The LED indicator will display the current power level, and the power bank will start charging your device.

Note: After charging is complete, you can press the power button twice to turn it off, or it will shut down automatically after approximately 35 seconds of inactivity.

Warning

1. Never leave a charging battery unattended.

2. Do not expose the power bank to excess humidity or liquids. It should be stored in a cool, dry place when not in use.

3. Do not damage or puncture the casing of the power bank, as this may lead to overheating, fire, or an explosion.

4. Avoid exposing the power bank to sources of heat, such as radiators, stoves, or direct sunlight, especially in environments where temperatures exceed 40°C (104°F). This could result in

overheating, fire, or explosion.

5. Do not use the power bank in strong electrostatic or electromagnetic environments, including near microwaves, as this may degrade the device's performance and lifespan.

6. If the power bank emits an odor, excessive heat, or shows signs of discoloration or distortion, discontinue use immediately to prevent damage or safety hazards.

7. All servicing should be referred to qualified service personnel, especially if the power bank is damaged, exposed to liquid, or not functioning properly. Do not attempt to service or open the device yourself as this could lead to overheating, fire, or explosion.

8. At the end of the power bank's life, dispose of this product at a battery recycling station. It is not suitable for disposal in domestic waste.

9. If the power bank is not used for a period of three months or more, its battery capacity may decrease. However, it will restore to normal capacity after 4-3 charge and discharge cycles.

Warranty

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website **powerology.me/warranty** and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
