Overview

A tool that exemplifies individuality through its pioneering design, blending elegance and functionality. The toolkit integrates a high-capacity container designed to maximize storage of screwdrivers and accessories in a compact space. Featuring a textured and sophisticated design that departs from traditional squared-off toolbox models, it caters to modern preferences with its angular and stylish form. Whether for disassembly or installation, this toolkit meets diverse needs, proving indispensable for everything from home repairs to professional mechanical maintenance.

Features

- 1.** The kit includes a spacious container designed to store a multitude of screwdrivers and accessories efficiently.
- 2.** Features a hand-operated magnetic box plate, enhancing both utility and engagement during use.
- 3.** Ideal for a wide range of applications, from casual home repairs to rigorous professional maintenance tasks.
- 4.** The ergonomic handle provides stress relief and is equipped with a three-speed torque adjustment feature for precision handling.
- 5.** Includes robust CR-V material bits and a set of interchangeable accessories for various tasks.
- 6.** Equipped with a battery status indicator for real-time monitoring, the screwdriver automatically powers down after 60 seconds of inactivity or when battery levels are low.
- 7.** Designed for optimal organization, this toolbox ensures easy accessibility and efficient storage of your tools.
- 8.** Constructed with superior S2 steel for exceptional strength and durability, making it ideal for heavy-duty use.

- 9. Engineered to be lightweight and compact, this toolkit offers great portability for on-the-go tasks.
- 10. Features an automatic shutdown function to conserve battery life when the tool is inactive.
- 11. Offers three speed settings to accommodate various applications and user preferences.
- 12. Equipped with an LED indicator for easy visibility and smart battery monitoring to ensure continuous operation.

Instructions for Use

A. Selecting Torque Speed

Select from three torque settings for versatile everyday use:

- 1. Maximum torque: 1.6 kgf.cm / 0.16 Nm
- 2. Maximum torque: 2.0 kgf.cm / 0.20 Nm
- 3. Maximum torque: 3.0 kgf.cm / 0.30 Nm
- 4. Hand power – maximum torque 30.0 kgf.cm / 3 Nm.

B. Powering the Product

The screwdriver operates without a conventional power switch and activates by pressing any button. It will automatically power down after 60 seconds of inactivity. Additionally, it will automatically shut down when the battery level is low.

Warranty

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website **powerology.me/warranty** and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
