## Schematic View

**1.** Multi-socket

**2.** US/AU/UK/EU plugs

**3.** LED indicator

**A. Solid light:**

The adapter operates normally.

**4.** USB-A1 port

**5.** USB-C3 port

**6.** USB-C2 port

**7.** USB-C1 port

**B. LED light is off:**

**B.1** Possible cause could be that the device is subjected to overload. To resolve this issue unplug one or more devices connected to the adapter and re-check the indicator light status.

**B.2** The reason could be that the electrical fuse is burned out. Check the fuse is working correctly.

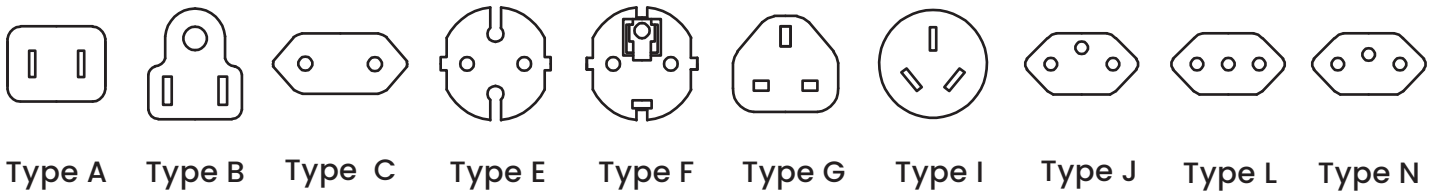

# Specifications

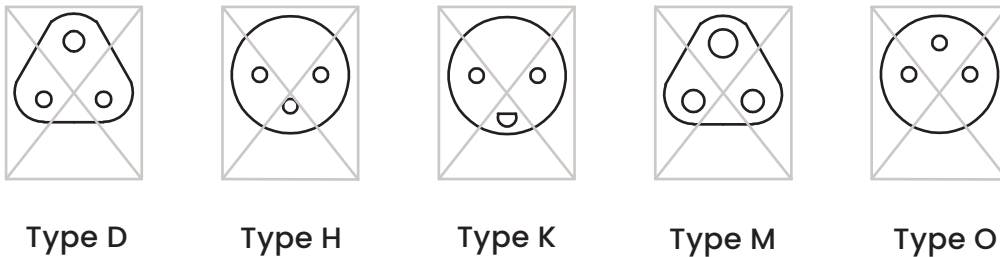

Model	P140WPD
AC Input	100–250V AC, 10A (Max.), 2500W (Max.)
Single Port Output Mode	C1 :140W (Max.) C2 :140W (Max.) C3:180W (Max.) A1 :18W (Max.)
Combined Output Mode	C1+C2:100W+35W (Max.) C2+C3:100W+18W (Max.) C1+A1:100W+18W (Max.) C2+A1:100W+18W (Max.) C3+A1:15W (Max.) C1+C2+C3:65W+35W+8W (Max.) C1+C2+A1:65W+35W+18W (Max.) C1+C2+C3+A1:65W+35W+15W (C3+A1) (Max.)
Total DC Output	140W (Max.)
Support	PD 3.1, QC4+, FCP, AFC, PPS, BC1-2 and more
Size	92.7*55*53.37mm

# Compatible Outlets

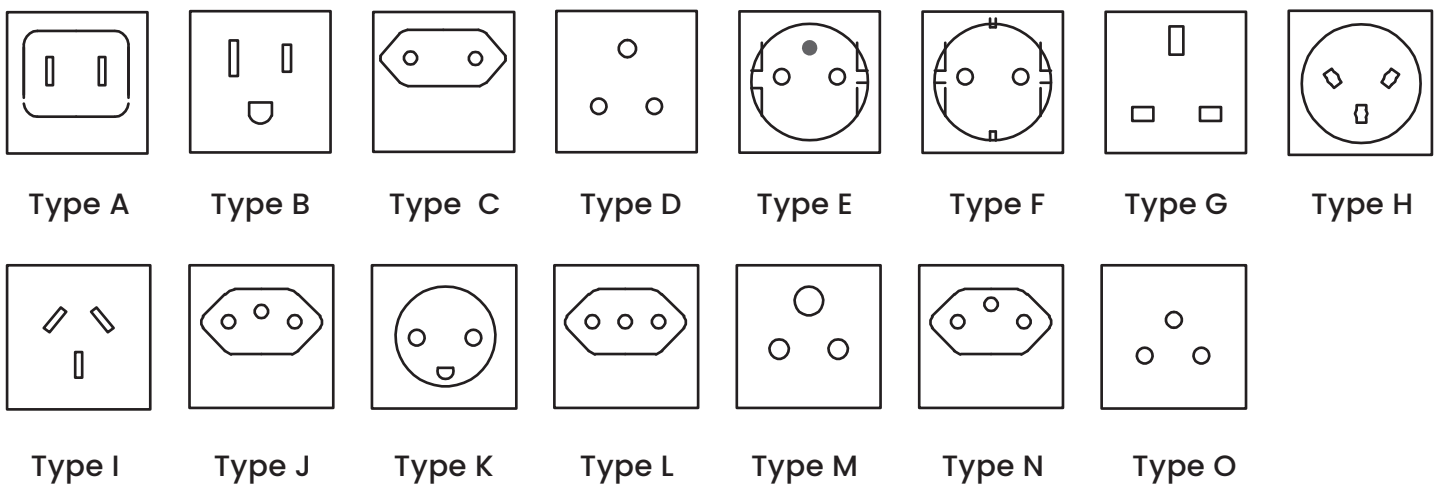

**1** This Adapter can accept Type A, B, C, E, F, G, I, J, L, N plugs.

Please notice that Type D, H, K, M, and O plugs are NOT accepted.

**2** The Adapter can be plugged into Type A, B, C, D, E, F, G, I, J, K, L, M, N, and O plugs.

## 2-Pole Unearthed Devices

The product is suitable for use with most electronic devices up to 2500W at 250V and 1000W at 100V. It can be used with a multitude of appliances such as: Laptops, Small travel hair dryers, Travel irons, Electric fans, Table lamps, Electric razors, etc.

Please check the safety data sheet or data plate on the device to find this information before plugging it in.

Laptops

Small Travel  
Hair Dryer

Travel Iron

Electric Fan

Table Lamp

Electric Razors

## USB Devices

Camera, Smartphone, Tablet, Portable Game Console, Bluetooth Speaker, Power Bank, etc.

Camera

Smartphones

Portable Game Console

Headsets

Power Banks

## Instructions for Use

### Features

1. Equipped with built-in multi-national plugs to fit a variety of outlets in different countries.
2. Incorporates a safety function switch that ensures only one plug is energized at a time.

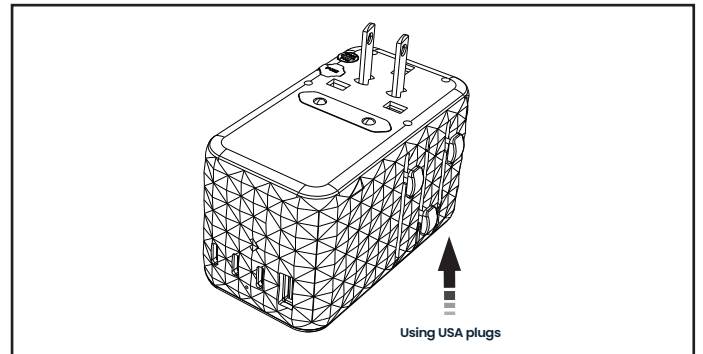

### Attentions

1. Ensure that the button is reset after the plug is pushed out and retracted back into the bottom. If the button does not reset, it indicates that the plug has not been secured properly, which can impede normal operation.

**2.** Only one plug type can be used each time by sliding the knob selector; this mechanism automatically locks the unused plug-pins.

### 1. Using USA plugs

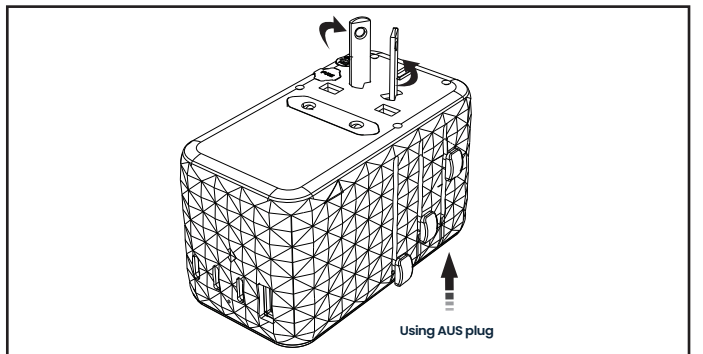

Gently press the button and slide it downwards to fully extend the USA plug. Ensure the contact blades are aligned in the parallel position.

**To retract the plug:** press and hold the "USA" button to disengage it, then continue to pull upwards until the plug is fully retracted. Upon releasing the button, it will reset and secure the plug in place.

### 2. Using AUS plug

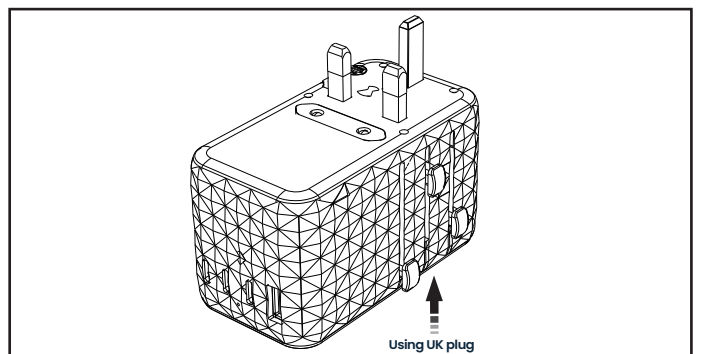

Gently press the button and slide it down. Ensure the contact blades are positioned parallel to each other.

**To retract the plug:** firmly press and hold the "AUS" button to release it, then continue pulling upwards until the plug is fully retracted to the top. Upon releasing the button, it will automatically reset and secure the plug.

### 3. Using UK plug

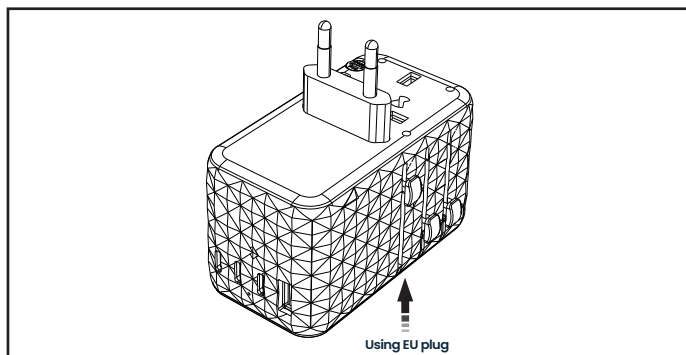

Gently press the button and slide it downwards. Extract the insulated ground pin from its housing.

To retract the plug: press and hold the "UK" button to release it, then continue to pull upwards until the plug is completely retracted to the top. After releasing the button, it will reset and secure the plug.

#### 4. Using EU plug

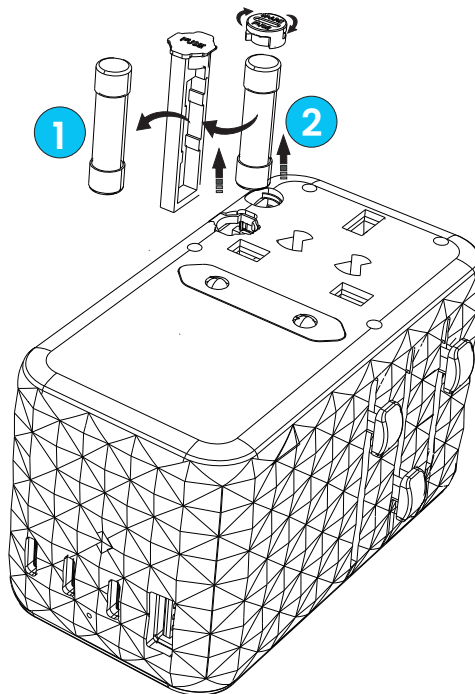

Lightly press the button and slide down. Ensure that the contact blades are aligned in a parallel position.

To retract the plug: hold down the "EU" button to release, then continue pulling upward until the plug is fully retracted. Once released, the button will automatically reset and secure the plug.

## Replacing the Fuse

1. Remove the first fuse ① .
2. Extract the second fuse ② , and place the ② in the original position of the first fuse ① to enable the adapter to function again.
3. If necessary, you may replace it with a new fuse that meets the following specifications: 250VAC 10A, size 6.3 \* 25.4 mm.

### Notes:

1. Ensure all devices are disconnected before replacing the fuse.

2. Check to see if any water has leaked from the connected equipment.
3. The device should not be wet or damp.

## Caution

1. Always unplug the Adapter from the outlet when it's not in use.
2. Please review these instructions thoroughly before use. This product does not convert voltage (AC-AC); to prevent potential damage to your device or other safety risks, ensure the power outlet has the correct voltage to operate your device before using this adapter.
3. For indoor use only.
4. Improper use may result in electrical shock.
5. The USB cable length should not exceed 3 meters.
6. This travel adapter is designed for temporary use and should not be utilized as a permanent power solution.
7. Do not insert an adapter into another adapter without approval from the manufacturer.
8. This product lacks grounding and should only be used with unearthed or double insulated appliances.

## Environmental Notice

1. Do not dispose of waste electrical products along with household waste.
2. Recycle these items at designated facilities where available.
3. Consult your local waste authority for recycling advice and regulations.

## **Warranty**

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty. The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website **powerology.me/warranty** and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
