8AC 2990W Power Strip

SKU: PWCUQC047

Table of Contents

Specifications

Model	PWC047
Rated Voltage	200-250V
Rated Power	2990W, 13A 250V~
USB-C1 PD Output	5V/3A, 9V/2.22A, 12V/1.67A, 20W
USB-A1 QC Output	18W
USB-C + USB-A	5V/3.4A
SHARING OUTPUT	
USB-C1+ USB-C2	5V/3.4A
USB-A1+USB-A2	5V/3.4A
USB-C1+ USB-C2 + USB-A1+ USB-A2	5V/3.4A
Size	226x110x31.2mm
Cable Length	2M

Safety Precautions

1. Use the device only in a dry indoor environment.

2. Ensure the device operates within its specified power limits, without exceeding the recommended load.

3. Keep away from children to avoid accidents or misuse.

4. Protect the device from impacts to prevent damage.

5. Always check the device specifications before plugging it into this product to ensure compatibility.

Instructions for Using the Switch

1. To turn off the socket, press the switch to "o".
2. To turn the socket on, press the switch to "I".

Overload Protection

1. When the total power is less than or equal to 2990W, the socket operates normally without triggering overload protection.
2. If the total power exceeds 2990W, the overload protection will activate, and the socket will turn off to protect the circuit. To continue using the socket, press the overload button to reset and resume operation.

Using the USB Port

Insert one side of the USB cable into the USB socket and the other side into your phone to connect.

Charging Parameters

When charging a single phone, the maximum charging power can reach PD20W.
When charging two phones simultaneously, the maximum power for each phone can reach 3.4A at 5V.

Timer Function

1. Power On: The initial state will display as "OU".
2. Press the timer button once to display "1".
3. Press the timer button twice to display "2", and so on.
4. The maximum timer value is 99 hours.
5. Long Press (More Than 1.5 Seconds): When the timer reaches 99 hours, press the button once to display "OU", then press again to display "--" (power off).
6. If the timer is stopped mid-way, the current time will be displayed. Example: "1" means 1 hour.
7. When the Time is Less Than 1 Hour: The display will show 0.8 ,0.9, or 0.1 hours.
8. For instance: 0.9 means 54 minutes (60 * 0.9 minutes), 0.8 means 48 minutes (60 * 0.8 minutes), and similarly for other values.

Change the Fuse in the Plug

Use a safe, qualified fuse. Fuse Specification: 13A 250V~

▌Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

▌Warranty

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website**powerology.me/warranty** and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
