Product Overview

- 1. USB-C input and output
- 2. USB-A output
- 3. On/Off button
- 4. Built-in cable input and output
- 5. LCD indicator

Specifications

Model Number	PPBAM12
Battery Capacity	10000mAh, 38.5Wh
USB-C Input	5V/3A, 9V/3A, 12V/2.5A, 15V/2A, 20V/1.5A (30W max)
USB-C Cable Input	5V/3A, 9V/3A, 12V/2.5A, 15V/2A, 20V/1.5A (30W max)
USB-C output	5V/3A, 9V/3A, 12V/2.5A, 15V/2A, 20V/1.5A (30W max)
USB-C Cable output	5V/3A, 9V/3A, 12V/2.5A, 15V/2A, 20V/1.5A (30W max)
USB-A Output	5V/3A, 9V/2A, 12V/1.5A, QC 18W, SCP 10V/2.25A
Total Output	5V/3A, 15W max, SCP 10V/2.25A
Size	77.5×61×28mm
Weight	187g

Recharging the Power Bank

To recharge your power bank, simply use the built-in Type-C cable to connect it to a computer, car charger, or wall charger. The power bank will begin charging automatically, and the LED indicator will display the current power level.

Charging Other Device

1. To charge your device, connect it to the built-in Type-C cable of the power bank. Press the power button once, and the LED indicator will show the current power level. The power bank will then begin charging your device.
2. Alternatively, if you are using your device's cable (not included), connect it to the power bank to charge your device. Press the power button once, and the LED indicator will show the current power level, initiating the charging process.
3. Once charging is complete, you can press the power button twice to turn off the power bank, or it will automatically shut off after approximately 35 seconds of inactivity.

Features

1. The power bank is equipped with an LCD indicator, allowing you to easily monitor the power level.
2. The type-C female port supports two-way fast charging, delivering up to 30W PD power for efficient performance.
3. The USB-A output provides fast charging capability with 22.5A power, ensuring rapid device charging.
4. The built-in Type-C cable allows both charging and discharging, eliminating the need for an additional recharging cable.

5. It is compatible with fast charging protocols, making it suitable for a wide range of devices available in the market.
6. The power bank ensures high transfer efficiency, enabling quick and reliable charging for your devices.
7. The Lithium polymer battery cell used in the power bank provides high safety and stability, ensuring long-lasting performance.
8. With a low self-discharge rate, the power bank is perfect for long-term standby and reliable use.
9. The power bank is highly compatible with various mobile phones, providing a versatile charging solution.
10. Its intelligent protection program helps prevent overcharging, over-discharging, overheating, and short circuits, ensuring the safety of your devices.
11. The compact and private design makes the power bank easy to carry, offering convenience on the go.

Warnings

1. Never leave a charging battery unattended.
2. Do not expose the power bank to excessive humidity or liquids. Store it in a cool, dry place when not in use.
3. Avoid damaging or puncturing the casing of the power bank, as this may lead to overheating, fire, or explosion.
4. Do not expose the power bank to heat sources such as radiators, stoves, or fires. Avoid placing it in environments with ambient temperatures above 40°C, such as inside a car on a hot day or in direct sunlight. Failure to follow these guidelines may result in overheating, fire, or explosion.
5. Do not use the power bank in a strong electrostatic or electromagnetic environment, such as near microwaves, as this may shorten the device's lifespan.
6. If the power bank emits an odor, excessive heat, or becomes discolored or distorted, discontinue use immediately.

7. All servicing should be referred to qualified service personnel, especially if the power bank is damaged, exposed to liquid, or does not operate normally. Do not attempt to open or service the device yourself, as this may cause overheating, fire, or explosion.

8. At the end of the device's life, please dispose of the product at a battery recycling station. It is not suitable for domestic waste disposal.

9. If the power bank has not been used for more than three months, its battery capacity may be reduced. However, normal capacity will be restored after 3-4 charge and discharge cycles.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website **powerology.me/warranty** and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
