Before using the product, please carefully read this User Manual to guarantee correct usage and keep it secure for future reference.

## App Connection Guide

To access all the functions of your smartwatch, including settings and stored data, connect it to the app. This smartwatch is compatible with the "Da Fit" app. Scan the QR code with your phone to download the app. Alternatively, you can search for the "Da Fit" app on Google Play or the App Store to download and install it.

## Pairing Instructions

1. Open the "Da Fit" app and tap on "Add Device" on the device page. Use Bluetooth to search for and add your device, following the on-screen instructions to complete the process.
2. Once the watch is successfully paired with the app, a prompt will appear asking if you'd like to pair with 'KW60C'. Tap Allow to enable the pairing. The phone functionality will only work after a successful pairing.

**Note:** If you don't tap Allow, the phone function will remain inactive. In that case, search for 'KW60C' in your phone's Bluetooth settings and select Pair. Once pairing is successful, the phone functionality will be enabled.

## Notice

1. Please avoid pairing directly through the mobile phone's Bluetooth settings, as this may prevent the "Da Fit" app from connecting to the watch.
2. Make sure to grant the "Da Fit" app access to your phone's location, phone, camera, and other necessary permissions to ensure successful pairing.

## Instructions for Use

Swipe up to access information.

Swipe down to open the control center.

Swipe right to view the smart split screen.

Swipe left to open the activity center.

## Button and Buttons:

1. Press and hold the button to turn the watch on or off.
2. Press the button once to enter the menu list.
3. Press the button again to return to the previous screen.
4. Rotate the button to scroll up or down through the menu interface.

## Smart Watch Functions

### Activity

Track detailed records of steps, calories, and exercise duration for the day. For in-depth analysis and data, view the details in the app.

### Sleep

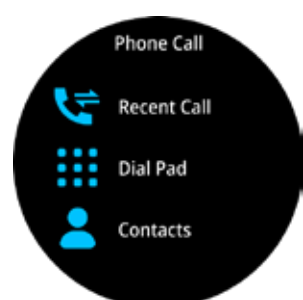

Record the total sleep time, along with the duration of deep sleep and light sleep. Detailed information and analysis are available in the app.

## Heart Rate

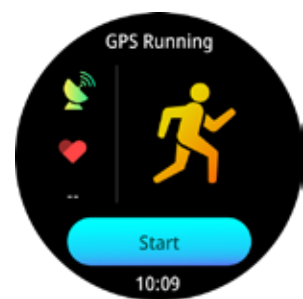

Record the total sleep time, along with the duration of deep sleep and light sleep. Detailed information and analysis are available in the app.

Measure your current heart rate. You can enable 24-hour heart rate monitoring through the app. Detailed information and data are accessible in the app. Values are for reference only and should not be used as medical evidence.

## Phone Call

Make and receive calls, view call records, and add contacts directly in the app. To use the phone function, ensure a stable connection between the watch and the phone.

## Exercise

Track a variety of exercise modes, including GPS walking, GPS running, GPS outdoor cycling, GPS trail running, GPS hiking, and over 100 other modes.

Detailed information and analysis can be viewed in the app. For outdoor exercises, wait for GPS satellite positioning in an open area. The GPS signal icon will flash while positioning is in progress and will stop flashing once positioning is complete.

## Exercise

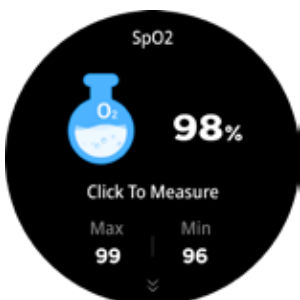

### Exercise Records

Record the latest 5 exercise records for quick reference.

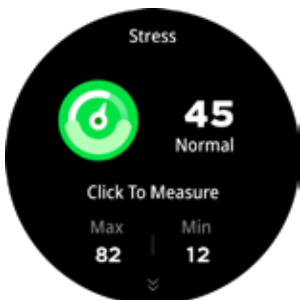

## Blood Pressure

Measure your current blood pressure and record the latest 7 readings. Detailed information and data are available in the app. Values are for reference only and should not be used as medical evidence.

## Blood Oxygen

Measure your current blood oxygen level and record the latest 7 readings. Detailed information and data can be accessed in the app. Values are for reference only and should not be used as medical evidence.

## Stress

Measure your current stress level. Enable 24-hour stress monitoring through the app. More detailed information and data can be accessed in the app. Values are for reference only and cannot be used as medical evidence.

## Weather

View the weather conditions for today and the next 6 days. Weather data is fetched through the app. If the connection is lost for an extended period, weather updates will no longer be available.

## Messages

Synchronize notifications from your phone and view the latest 8 stored messages. Ensure that you've enabled the relevant notification settings in the app.

## Shutter

After connecting to the app, open the photo control in the app and remotely take photos.

## Music Control

Once connected to the app, the watch can control music play/pause, skip to the previous or next song, and adjust the volume on your phone.

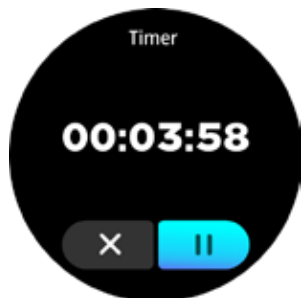

## Relaxation

Select a relaxation mode to help reduce stress based on your needs.

## Voice Assistant

Activate the voice assistant by tapping and speaking the desired function. The watch must be connected to the phone via Bluetooth for this feature to work.

## Timer

Set a custom timer for any duration, such as 1 minute, 5 minutes, 10 minutes, etc.

## Alarm Clock

Set up to 8 alarms with customizable reminder times. The alarm will vibrate and light up the screen when activated.

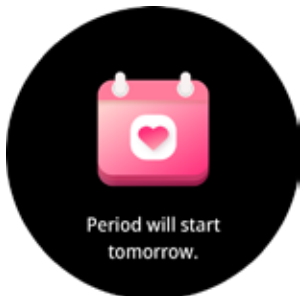

## Stopwatch

Track up to 99 time records.

## World Time

Add up to 6 different time zones from countries and regions. You can add or delete time zones directly in the app settings.

## Menstrual Period

Set the menstrual period function in the app, and the watch will display your menstrual cycle, predicted period, and ovulation reminders.

## Flashlight

Activate the flashlight to illuminate your surroundings. Tap the flashlight page to turn it off.

## Calculator

Perform basic calculations, such as addition, subtraction, multiplication, and division.

## Find Phone

Tap Find Phone to make the phone vibrate and ring, helping you locate it.

## Games

Enjoy games such as Young Bird, Whack-a-Mole, Thunder Boat, and 2048 during your free time.

## Settings

Adjust settings for display and brightness, vibration and sound, wrist raise to wake the screen, do not disturb mode, power-saving mode, call settings, media audio, call reset, screen-off clock, ephemeris updates, and more.

## Media Voice

Enable or disable media sound to control music, videos, TikTok, and other media content. This setting controls the sound on the watch, not the phone.

**Other Functions:** Electronic business card, Watch search, 12/24-hour time system, Online watch face push / Custom watch face push, Unit settings, Water drinking reminder, Sedentary reminder, Low battery reminder, Power saving mode, High heart rate reminder, Goal achievement reminder

## Charging Guide

1. Place the watch on the charging dock, ensuring that the charging contacts on the back of the watch align perfectly with the metal contacts on the charging head.
2. Connect the charging cable to a standard USB charger with an output voltage of 5V and an output current of 0.5A or higher, purchased from a reputable source.

**Note:** Before reusing the charging cable, wipe the charging contacts clean to remove any sweat or moisture residue.

## Safety Precautions

- 1.** Although the smartwatch is IP68-rated for water and dust resistance, it is not designed for high-pressure water activities such as scuba diving or water skiing. Avoid exposure to hot water, steam, or excessive moisture.
- 2.** Keep the smartwatch away from extreme heat or cold. Exposure to temperatures higher than 60°C (140°F) or lower than -20°C (-4°F) may damage the device.
- 3.** Do not attempt to disassemble or repair the smartwatch. Any unauthorized modification may void the warranty and cause malfunction or safety hazards.
- 4.** Keep the smartwatch away from strong magnetic fields or electronic devices that may interfere with its performance, including large speakers or magnets.
- 5.** To maintain its water resistance, clean the smartwatch regularly using a soft, dry cloth. Avoid using harsh chemicals or abrasives.
- 6.** Only use the charger provided with the smartwatch. Charging with third-party chargers may cause damage or malfunction. Ensure the charging contacts are clean and dry before connecting the charging cable.
- 7.** When wearing the smartwatch during physical activities, ensure it is securely fastened to prevent any accidental impact or injury.
- 8.** Be cautious when wearing the smartwatch in environments with sharp objects, as these may scratch or damage the screen or body.
- 9.** Avoid charging the smartwatch overnight or overcharging it. Unplug the device once it reaches %100 to prevent unnecessary strain on the battery.

**10.** This smartwatch is not a toy. Keep it out of reach of young children to avoid accidental swallowing of small parts, choking, or misuse.

## Specifications

Screen Size	1.19" Amoled
Material	Zinc Alloy Frame
Strap Size	18MM
Bluetooth Version	V5.4
Battery Capacity	300mAh
Charging Time	2.5H
Working Time	Up to 5 days
Water Resistant Level	IP68
System Compatibility	Android 8.0+, iOS 12+
