1. LED Button
2. ANC Button
3. Volume + Button (Next Track)
4. Multi-function Button
5. Volume - Button (Previous Track)
6. Type-C Port

setup Guide

1. Charging the Headphone
To fully charge the headphones for the first time, insert the Type-C cable into the charging port and connect it to a power source. When charging, the indicator light will turn on. Once charging is complete, the indicator light will turn off. It typically takes about 2-3 hours to fully charge.

2. Power ON/OFF

Power On: Press and hold the Multi-function button (power button) for 2 seconds. The indicator will flash red and blue, signaling that the headphone is ready for connection.

Power Off: Press and hold the Multi-function button (power button) for 3 seconds until the indicator turns off.

3. Bluetooth Guidance

Wireless Mode Activation

Wireless mode offers hands-free call functionality and wireless music playback.

To enable wireless mode, turn on the Bluetooth function on your phone. The headphone indicator will glow blue and red, signaling that the headphones are in pairing mode. Find and select the device labeled "V32" from the available list to connect.

4. Wireless Mode

Answering Calls: When the headphones are connected to your phone and an incoming call is received, briefly press the Multi-function button (power button) to answer the call. Press it again to end the call.

Canceling a Call: If a call is in progress, press the Multi-function button briefly to cancel the call.

Rejecting a Call: Hold the Multi-function button (power button) for 2 seconds and release it to reject the call.

Adjusting Volume: Press the (+) or (-) button to increase or decrease the volume, respectively.

Changing Tracks: Long press the (+) or (-) button to skip to the next or previous track.

Playing or Pausing Music: Press the Multi-function button (power button) to play or pause music.

Turning the Light On/Off: Press the LED button briefly to turn on the light. Press it again to turn off the light.

5. ANC Mode (Active Noise Cancellation)

To activate the ANC mode in music play, press the ANC button to enter the transparent mode. Press the ANC button again to turn on ANC and enjoy noise cancellation.

To exit ANC mode, press the ANC button once more. When ANC is active, the indicator light will glow green.

6. Wired Headphone Function

For wired listening, plug the 3.5mm audio cable into the headphone's audio port, then connect the other end to a computer or other music device. When using a wired connection, Bluetooth functionality will be disabled, and the volume cannot be adjusted through the headphone controls.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website**powerology.me/warranty** and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
