Product Overview

The Powerology Nexara Smart Car Charger is a high-performance car charger designed to provide fast charging and seamless CarPlay connectivity. With 30W Power Delivery and 15W wireless charging capabilities, this device allows you to charge your devices quickly while enjoying wireless CarPlay support. The magnetic holder ensures stable positioning, while the overload protection feature guarantees safe operation by preventing overcharging. The charger is equipped with advanced features that provide high power charging and reliable connectivity, making it an ideal solution for drivers looking to stay connected and powered up while on the go.

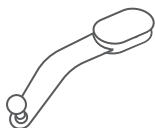

Specifications

PPS Output	3.3–11V/3A (Max 33W)
Wireless Output	15W
Total Output	51W
Model Number	PCCSR022

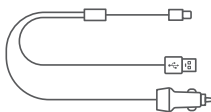

Package Contents

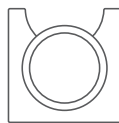

Main Unit

Main Unit

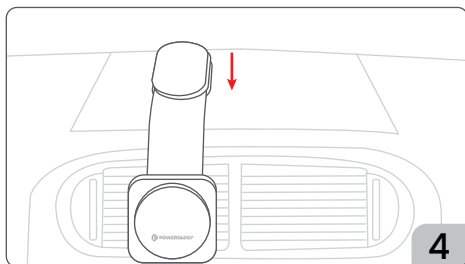

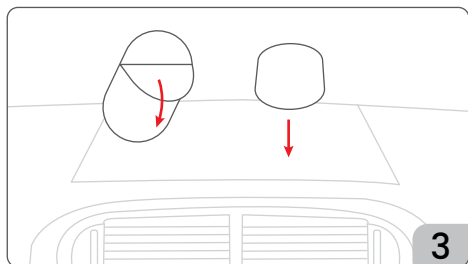

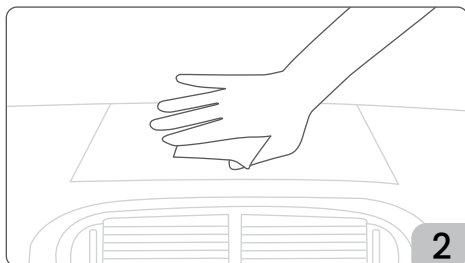

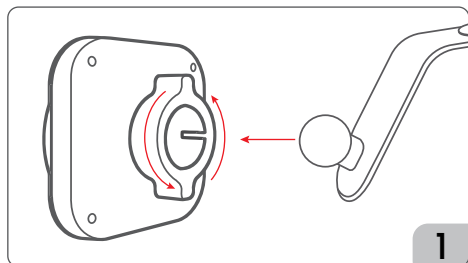

Power Cable

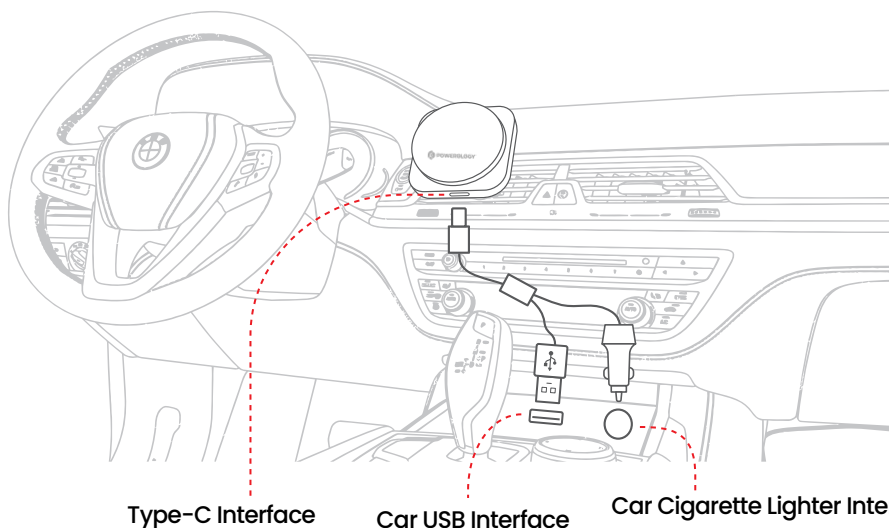

Magnetic Ring

Bracket Setup

1. Loosen the knob on the back of the magnetic charging unit and insert the bracket's ball head.
2. Clean the dashboard surface thoroughly.
3. Peel off the protective film from the Hook & Loop adhesive and attach it to the dashboard.
4. Secure the bracket and adjust it to your desired angle.

Cable Connection

1. Insert the car charger end of the cable into the vehicle's cigarette lighter socket.
2. Plug the USB-A end into the car's USB port.
3. Connect the Type-C connector to the magnetic charging unit to complete the setup.

CarPlay Setup Guide

Bluetooth

OTHER DEVICES

SmartBox-****

Use CarPlay with
"SmartScreen"

Not Now

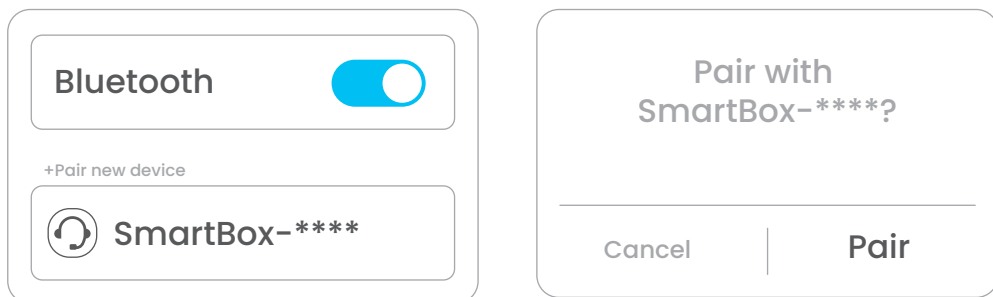

Use CarPlay

1. Open the "Settings" menu on your iPhone and ensure both Bluetooth and Wi-Fi are enabled.
2. Go to the "Bluetooth" section in the settings. Under "OTHER DEVICES," select the Bluetooth device named ****SmartBox-******.
3. Wait for 20–30 seconds until your iPhone displays a "Bluetooth Pairing Request" window. Select Pair.
4. Your iPhone will prompt you with a window asking, "Use CarPlay with 'SmartScreen'?" Select Use CarPlay.
5. Wait for a moment, and you will enter CarPlay mode.

Important Notes:

- A. Both CarPlay and the iPhone voice system must be enabled. Make sure Siri is turned on.
- B. Different iOS versions may slightly vary from the example shown. Please refer to your actual iOS version if you encounter differences.
- C. To switch to Android Auto, disable Bluetooth and Wi-Fi on your iPhone and disconnect from Apple CarPlay mode.

Android Pairing Instructions

1. Go to the "Settings" menu on your phone and enable Bluetooth and Wi-Fi.
2. Tap on the "Bluetooth" menu to open the Bluetooth search page.
3. Select "Pair new device".

Important Notes:

- A.** Ensure your phone is running Android 11 or higher, with support for 5GHz Wi-Fi and Google Play services.
- B.** The display and settings may vary across different Android models, so please refer to your actual device for specific instructions.
- C.** To switch to Apple CarPlay, disable Bluetooth and Wi-Fi on your phone and disconnect from Android Auto mode.

Device Switching Guide

1. Turn off Bluetooth and WLAN on the currently connected phone simultaneously. (Important)
2. Unplug and reinsert the adapter.
3. On the second phone, turn on Bluetooth, search for the adapter's Bluetooth name, which is "SmartBox-xxxx," and pair it.
4. If the system prompts that the Bluetooth is in use, try pairing multiple times to successfully complete the switch.

OTA Update Instructions

Connect to WiFi

WLAN

NETWORKS

SmartBox-xxxx

Password88888888

Enter the IP address in the browser address bar

 **192.168.1.101**

Update

1. Power on the adapter.
2. Open the Settings menu on your phone and enable WLAN.
3. Go to the WLAN settings and select the adapter named "SmartBox-xxxx" from the "NETWORKS" list. The default password is 88888888.
4. Enter the IP address "192.168.1.101" in your phone's web browser.
5. Click "Update" on the OTA page. (Do not exit the page during the upgrade process to avoid interrupting it.)
6. Once the upgrade is complete, the page will display "Update Completed."
7. Unplug and replug the adapter.
8. Delete the old Bluetooth connection on your phone and establish a new Bluetooth connection to start using the upgraded product.

LED Status Guide

- A.** Red and Green or Red and Blue lights flashing alternately:
The adapter is powered on.
- B.** Red light flashing:
CarPlay connection is in progress.
- C.** Blue light flashing:
Android Auto connection is in progress.
- D.** Rainbow light flashing:
CarPlay or Android Auto has successfully connected.

Compatibility Guide

1. Ensure that your vehicle is compatible with either wired CarPlay or Android Auto.
2. The wireless CarPlay feature is compatible with iPhone 6 or newer models running iOS 10 or higher.
3. The wireless Android Auto feature requires an Android smartphone running Android version 11 or higher, supporting the latest Android Auto features.

To verify compatibility with wired CarPlay or Android Auto:

- A. Connect your iPhone or Android device to your car using a USB data cable. The connection interface logo should appear on your car's display screen.
- B. Check the compatibility list or consult with your car manufacturer directly for confirmation.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website **<https://www.powerology.me/warranty>** and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
