# Product Overview

The Powerology Clario 1200 Lumens Bonnet Work Lamp is a high-performance, durable lighting solution designed for automotive tasks. Featuring a 12W COB LED, it delivers an impressive 1200 lumen output, providing bright and reliable illumination for your work. Built with an IK07 impact-resistant rating, this lamp is tough enough to withstand challenging environments. It offers an adjustable length of 1.2m to 1.8m, making it versatile and easy to position over vehicle bonnets. With a 70° beam angle, it ensures wide and focused lighting, perfect for a variety of applications. Weather-resistant and reliable, the Clario work lamp is an essential tool for any car maintenance or repair project, combining power and durability in one sleek design.

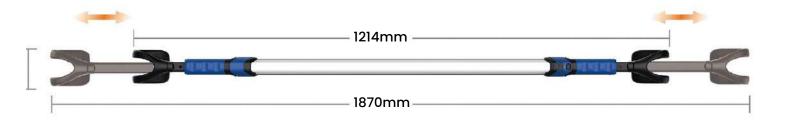

### **Specifications**

Model	PWZF6678
Brightness	400-1200 Lumens
Battery Capacity	4000mAh
Input	5V/2A
Charging Interface	USB-C
Working Time	2-6H

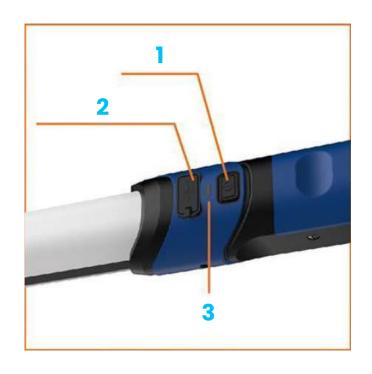

Height Range	1214 to 1870 mm
Illumination Distance	22m to 40m
Product Weight	1080g

# Product Design

This tool or part is designed with flexibility in mind, allowing it to extend from a compact length of 1214mm to a full length of 1870mm.

- 1. Power On/Off
- 2. Charging Port
- 3. LED Indicator

# Charging Instructions

- 1. Insert the adapter cord into the charging socket, which is located in one of the handles of the ramp.
- Connect the USB-C cable to the 5V2A charger.
- 3. The charging indicator lights will activate during the charging process. After approximately 2 hours, all four indicator lights will be illuminated, indicating that the ramp is fully charged and ready for use. Once fully charged, unplug the adapter.
- 4. Do not leave the battery completely discharged. To maintain the battery's lifespan, charge it every three months when the ramp is not in use. This will help prevent the battery from draining completely. Additionally, avoid charging the ramp in temperatures below 5°C to protect the battery from damage.

#### **Usage Instructions**

- Before using the worklight for the first time, ensure the battery is fully charged.
- 2. Turning On (Low Brightness Mode): Press the on/off switch once to turn the ramp on. The light will illuminate in low-brightness mode.
- 3. Switching to High Brightness Mode: Press the on/off switch a second time to activate high brightness mode.
- 4. Turning Off: Press the on/off switch a third time to turn the light off completely.

- 5. Adjusting Ramp Length: The ramp's length can be adjusted by pulling on the hooks. The maximum length is 85 inches. Use the hooks to secure the ramp in the desired position, such as on the hood of a car.
- 6. Storage After Use: When finished, store the ramp in a safe, dry location, out of the reach of children.

## Scope of Use

1. Engine Maintenance Lighting: The product can be attached to your car.

2. Ground Light Source: It can be placed on the ground to be used as the main light source.

3. Object Suspension Lightning: The product can be placed on the door or any other object to light the place for you.

# Safety Precautions

- 1. To ensure the device remains functional and safe, keep it dry at all times. Avoid opening, dropping, short-circuiting, incinerating, or exposing the device to temperatures exceeding 60°C. Never use or charge the device if it shows any signs of damage.
- 2. For safe operation, always use the charging adapters that come with the device. Using non-supplied adapters may cause damage to the tool or potentially lead to a fire hazard.
- 3. Do not immerse the lamp in water or any other liquids, as this can cause irreversible damage to its internal components.
- 4. Refrain from using the device in environments that may contain flammable liquids, gases, or dust particles. Such atmospheres can pose significant risks of fire or explosion.
- 5. If you have a pacemaker, it is essential to consult with your physician before using this device. The electromagnetic fields generated by the device may interfere with pacemakers and cause potential malfunction or health risks.
- 6. This product is not intended for use as a toy. Always keep it out of reach of children to prevent accidents or misuse. Children should also avoid exposure to the light, as shining it directly into their eyes may cause discomfort or harm.
- 7. Never attempt to disassemble, repair, or puncture the device. This could result in damage, safety hazards, or personal injury. If the device is damaged or malfunctions, consult a qualified technician for repairs.
- 8. This device contains a lithium-ion battery. When disposing of the battery, ensure it is recycled or disposed of properly. Do not

expose the battery to extreme conditions such as crushing, heating above 60°C, or incinerating, as this may lead to hazardous reactions.

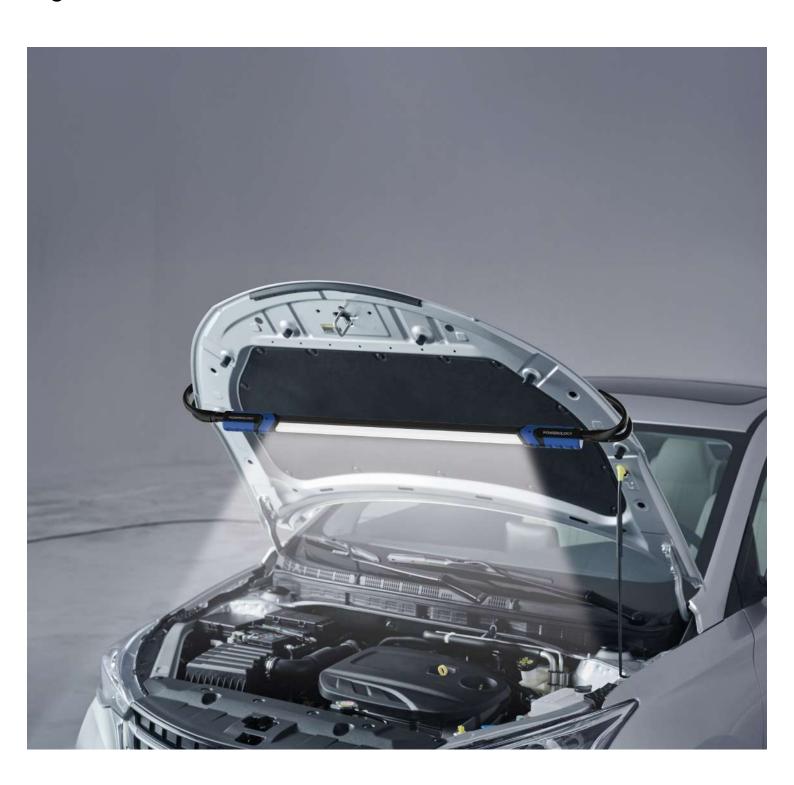

9. Do not shine the light directly into the eyes, as this can cause discomfort or potential eye damage. Always use the device responsibly.

#### **Battery Removal**

- 1. The lamp contains a Li-ion battery. For safety and environmental reasons, the battery must be recycled or disposed of in accordance with local regulations.
- 2. Before removing the battery, ensure that the light is switched off and the adapter is unplugged. This step helps prevent any electrical hazards.
- 3. Open the lamp's case to access the internal components. You may need a tool to remove any screws or fastenings holding the case together.
- 4. Once the case is open, carefully detach the wires connected to the battery. Be cautious as the battery might be slightly adhered to the case. If so, gently lever the battery out to avoid damaging the components.

# Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website**powerology.me/warranty** and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
