## Product Overview

The Powerology Logan 360° Rotation Head MagSafe Car Phone Holder is designed to provide secure and flexible phone mounting solutions for drivers. Featuring a strong magnetic mount, it ensures a firm hold on your phone while allowing for 360° freedom of movement. The holder includes four flexible rotating joints, enabling both horizontal and vertical adjustments, making it easy to achieve an ideal viewing angle. This car phone holder supports one-handed operation, adding convenience and practicality while on the road. The device is compatible with MagSafe technology, ensuring easy attachment and removal of your phone, all while maintaining a secure grip through powerful magnets.

## Specifications

|                |                         |

| Material       | ABS+PC+Aluminum         |
| Magnet Type    | N52                     |
| Magnetic Force | 18N                     |
| Product Weight | 87.1g                   |
| Product Size   | 65.81 x 113.2 x 115.8mm |
| Model Number   | PWS16                   |

## Product Features

- a. The holder features a robust magnetic system that ensures your phone stays securely in place, even on bumpy roads. The powerful magnets provide a firm grip, minimizing the risk of your phone slipping or falling during the drive.
- b. With the ability to rotate your phone a full 360 degrees, the holder offers ultimate flexibility in adjusting the viewing angle. Whether you

prefer to position your phone horizontally for navigation or vertically for easier viewing, this feature ensures it can be oriented in any direction.

**c.** The holder is equipped with four rotating joints that allow you to adjust both the horizontal and vertical angles. This flexibility helps you find the most comfortable and convenient position, whether you're using it for navigation, calls, or music.

**d.** Designed to work seamlessly with MagSafe-enabled devices, this holder provides an easy, snap-on attachment. It allows for quick and secure placement of your phone, as well as simple removal without hassle, ensuring a smooth and convenient user experience.

**e.** The design of the holder allows you to mount and remove your phone with just one hand, making it easy to use while keeping your focus on the road. This ensures a safer driving experience by minimizing distractions.

**f.** The holder is compatible with car air vent mounts, making installation quick and simple. This positioning also ensures that your phone is within easy reach and visible, without obstructing your view of the road or distracting you from your driving.

**G.** The holder allows for precise adjustments to the phone's angle, so you can achieve the most comfortable viewing position based on your seat and preferences. Whether you're driving long distances or making quick calls, you can customize the angle for better visibility and ease of use.

## **Safety Precautions**

**1.** Always securely attach the phone holder to the air vent mount before use. An improperly mounted holder can affect the stability of your phone, increasing the risk of it falling during driving.

**2.** Position the phone at an angle that does not obstruct your view of the road or interfere with vehicle controls. Make sure the phone is within easy reach but does not distract you from driving.

3. Ensure the magnets are securely holding your phone. If the phone seems loose or unstable, adjust the holder or check the condition of the magnets to prevent accidents.
4. Avoid mounting phones or devices heavier than the holder's recommended weight limit, as this could lead to instability or failure of the magnetic hold.
5. For best performance, use the holder with MagSafe-enabled phones. Non-MagSafe devices may not secure as firmly and could pose a safety risk if the phone detaches unexpectedly.
6. If you're driving on rough terrain, check the holder periodically to ensure the phone remains securely in place. Excessive vibration may weaken the magnetic hold over time.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **Powerology** website or shop come with a 12-month warranty.

The 12-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website **<https://www.powerology.me/warranty>** and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 12-month warranty period.
